The Dieri Native Title Determination
ORDER ENTERED

No: SAD 6017/1998

Federal Court of Australia
District Registry: South Australia
Division: General

EDWARD LANDER and others/another named in the schedule
Applicant

STATE OF SOUTH AUSTRALIA and others/another named in the schedule
Respondent

ORDER

JUDGE: Mansfield J

DATE OF ORDER: 1 May 2012

WHERE MADE: Marree Station

THE COURT NOTES THAT:

A The Applicant first lodged Native Title Determination Application No. SAD 6017 of 1998 (the Application) with the National Native Title Tribunal on 21 August 1997 in relation to lands and waters in northern South Australia which are now the subject of a proposed determination of native title. The Application was referred to the Federal Court of Australia on 30 September 1998.

B The Applicant, the State of South Australia and the other respondents have reached an agreement as to the terms of a determination of native title to be made in relation to the whole of the land and waters covered by the Application. They have filed with this Court, pursuant to section 87 of the Native Title Act 1993 (Cth) (the Native Title Act), an agreement in writing to seek the making of consent orders for a determination.
C The State of South Australia asserts that the Vesting (as defined in paragraph 1 (b)) of those parts of the Determination Area in the Crown listed in Schedule 4 ("the Schedule 4 Areas") means that the exercise of all native title rights and interests in relation to those areas (whether exclusive or non-exclusive) was suppressed at the date of the Vesting, pursuant to the non-extinguishment principle established by the Native Title Act. Accordingly, all native title rights and interests in the Schedule 4 Areas remain suppressed for as long as those areas remain vested in the Crown under the National Parks and Wildlife Act 1972 ("the NFWA") or other relevant State legislation.

D The Applicants assert with regard to the Schedule 4 Areas that some native title rights are not suppressed by the Vesting but acknowledge the operation of the non-extinguishment principle provided for in the Native Title Act.

E The Parties have agreed to the following orders in relation to the native title rights and interests, reflecting (insofar as those orders relate to the Schedule 4 Areas) a compromise of the issue addressed in Recitals C and D.

F The parties acknowledge that the effect of the making of the determination will be that the members of the native title claim group, in accordance with the traditional laws acknowledged and the traditional customs observed by them, will be recognised as the native title holders for the Determination Area as defined by Paragraph 3 of this Order.

G The parties have requested that the Court determine the proceedings without a trial.

Being satisfied that a determination in the terms sought by the parties would be within the power of the Court and it appearing to the Court appropriate to do so and by the consent of the parties:

THE COURT ORDERS, DECLARES AND DETERMINES BY CONSENT THAT:

Interpretation & Declaration

1 In this determination, including its schedules:

   (a) unless the contrary intention appears, the words and expressions used have the same meaning as they are given in Part 15 of the Native Title Act;
(b) "the Vesting" means the vesting of a Park or Reserve in the Crown pursuant to the NPWA as listed in Schedule 4; and

(c) in the event of an inconsistency between a description of an area and the depiction of that area on the map in Schedule 2, the written description shall prevail.

2 Native title exists in the areas described in Schedule 1 with the exception of those areas described in paragraphs 9, 11, 12, and 14 ("the Determination Area").

**General Limitations**

5 The native title rights and interests are for personal, domestic and communal use but do not include commercial use of the Determination Area or the resources from it.

6 The native title rights and interests described in paragraph 4 do not confer possession, occupation, use and enjoyment of the Determination Area on the native title holders to the exclusion of others.

7 Native title rights and interests are subject to and exercisable in accordance with:

(a) the traditional laws and customs of the native title holders;

(b) the valid laws of the State of South Australia and Commonwealth, including the common law.

For the avoidance of doubt, the native title interest expressed in Paragraph 4(e) (the right to use the natural water resources of the Determination Area) is subject to the *Natural Resources Management Act 2004* (SA).

8 Native title does not exist in the areas and resources described in Paragraphs 9, 11, 12 and 14 herein.

9 Native title rights and interests do not exist in respect of those parts of the Determination Area being any house, shed or other building or airstrip or any dam or
other stock watering point constructed pursuant to the pastoral leases referred to in Paragraph 15(a) below constructed prior to the date of this determination. These areas include any adjacent land or waters the exclusive use of which is necessary for the enjoyment of the improvements referred to.

10 To be clear, Paragraph 9 does not preclude the possibility of further extinguishment, according to law, of native title over other limited parts of the Determination Area by reason of the construction of new pastoral improvements of the kind referred to in Paragraph 9 after the date of this determination.

11 Native title rights and interests do not exist in:

(a) Minerals, as defined in section 6 of the Mining Act 1971 (SA); or

(e) geothermal energy, as defined in section 4 of the Petroleum and Geothermal Energy Act 2000 (SA) the source of which is below a depth of 100 metres from the surface of the earth.

For the purposes of this paragraph 11 and the avoidance of doubt:

(i) a geological structure (in whole or in part) on or at the earth's surface or a natural cavity which can be accessed or entered by a person through a natural opening in the earth's surface, is not a natural reservoir;

(ii) thermal energy contained in a hot or natural spring is not geothermal energy as defined in section 4 of the Petroleum and Geothermal Energy Act 2000 (SA);
the absence from this order of any reference to a natural reservoir or a naturally occurring accumulation of a regulated substance, as those terms are defined in section 4 of the Petroleum and Geothermal Energy Act 2000 (SA), above a depth 100 metres below the surface of the earth or geothermal energy the source of which is above a depth of 100 metres below the surface of the earth is not, of itself, to be taken as an indication of the existence or otherwise of native title rights or interests in such natural reservoir, naturally occurring accumulation of a regulated substance or geothermal energy.

12 Native title rights do not exist in the areas covered by Public Works (including the land defined in section 251D of the Native Title Act) which were constructed, established or situated prior to 23 December 1996 or commenced to be constructed or established on or before that date.

13 Public Works constructed, established or situated after 23 December 1996 have had such effect as has resulted from Part 2, Division 3, of the Native Title Act.

14 Those areas described in Schedule 3 have been excluded from the Determination Area because native title has been extinguished over them.

4.1 The parties acknowledge that prior to the date of execution of the Deed, the Company has awaited grant of the Licence/s and accordingly has not been afforded an opportunity to undertake reconnaissance surveys to ascertain proposed paths for seismic lines, access roads and locations for other Petroleum Operations on the Licence Area (Reconnaissance Surveys).

4.2 Notwithstanding the provisions of this Schedule 4 relating to inspection and clearing of Operational Areas, the Corporation as agent for the Native Title Holders acknowledges that in order to efficiently carry out the purposes of this Schedule, it may be necessary for the Company to enter onto the Licence Area to undertake Reconnaissance Surveys and the parties agree that the provisions contained in clauses 9, 10 and 11 and Annexure A hereof do not apply to Reconnaissance Surveys where:

(a) the Company is conducting the Reconnaissance Surveys pursuant to existing legal rights and by making visual observations in the vicinity thereof to facilitate a request under clause 8 hereof; or

(b) the Corporation has consented to activities following a preliminary consultation convened with a representative of the Corporation for the purpose of the Company explaining to the Native Title Holders its need to conduct Reconnaissance Surveys (which consent shall not be unreasonably withheld).

5. LAND ACCESS AND OCCUPATION

5.1 The Corporation as agent for the Native Title Holders acknowledges the grant to the Company of Licence/s in respect of the Licence Area and authorise the Company, its contractors, sub-contractors, employees, agents and visitors to enter upon the Licence Area at all times and to commence and proceed with Petroleum Operations.

5.2 The Corporation may object in writing upon reasonable grounds to a person having access to the Licence Area and the Company shall ensure that, as far as is possible within its power, such person or persons shall not enter upon the Licence Area.

6. IDENTIFICATION

6.1 The Company shall notify the Corporation of the name of the representative of the Company responsible for Petroleum Operations from time to time on the Licence Area, such notice to be given fourteen (14) days in advance, in writing where practicable.
6.2 The Company shall inform all of its contractors, employees, agents and visitors of the obligation upon them to contain Petroleum Operations within Seismic Line Access Corridors or Work Sites which have been inspected and cleared in accordance with clause 9, 10 and 11 and Annexure A of this Schedule and to comply with all conditions consistent with this Schedule.

7. PETROLEUM OPERATIONS

7.1 The Company shall at all times upon the Licence Area:

(a) comply with the provisions of the Petroleum Act and the Licence/s granted to the Company thereunder;

(b) comply with the environment protection procedures required by all Applicable Laws relevant to its Petroleum Operations;

(c) conduct itself in accordance with good and accepted petroleum industry practice standards;

(d) ensure that as far as is reasonably practical its Petroleum Operations cause minimum disturbance to the Licence Area; and

(e) use good and accepted petroleum industry practice to avoid oil spills or blowouts.

8. NOTIFICATION OF OPERATIONS

8.1 Subject to the provisions of clauses 9, 10 and 11 and Annexure A hereof, the Company shall provide the Corporation at least sixty eight (68) days in advance of Petroleum Operations being conducted in the Operational Area a written request for a Clearance on that Operational Area accompanied by particulars in writing of the following parts of the proposed Work Program, namely:

(a) the proposed location of seismic lines and access roads;

(b) the proposed approximate location of Work Sites;

(c) the proposed method of seismic operations (specifically whether two or three dimensional seismic operations over specific areas) and other consequential operations, including exploration drilling and testing and the proposed construction or use of access roads in such operations;

(d) the major items of equipment proposed to be used;

(e) the location of any proposed earthworks for the disposal of any waste material arising out of Petroleum Operations;

(f) the location of any earthworks for minimising environmental disturbance or pollution, including oil spills and blowouts;

(g) the proposed site and nature of any buildings or structures (including pipelines and associated facilities); and
(h) any other aspect of the Petroleum Operations which is likely to have an adverse impact upon or cause substantial disturbance to native title rights and interests in any part of the Licence Area.

8.2 Prior to the expiration of fourteen (14) days (or such other period as the parties agree) after the Company has requested a Clearance and provided the particulars of its proposed Work Program in accordance with this clause 8, the Company and the Corporation by their respective representatives and advisors, shall meet. The purpose of such meeting shall be:

(a) to discuss the proposed Work Program and its practical implementation including matters such as access to existing tracks, topography, the Work Program envisaged (including disturbance to the physical environment) and the major items of equipment to be used;

(b) to identify aspects of the proposed Work Program and proposed Clearance where efficiencies can be implemented; and

(c) to discuss arrangements for preliminary access by the Company for Reconnaissance Surveys so as to avoid adverse impact on native title rights and interests in the physical environment.

8.3 If the Corporation is not reasonably satisfied with the particulars of the Petroleum Operations given pursuant to subclause 8.1 above, the Corporation may, prior to the proposed commencement of Petroleum Operations request the Company to provide and the Company will provide, reasonable further particulars of such proposed Petroleum Operations.

8.4 The Corporation may object to the proposed Petroleum Operations referred to in subclause 8.1 above, provided that:

(a) the objection is made in writing within fourteen (14) days of receipt of the Work Program; and

(b) the matter objected to is likely to have a material adverse impact or cause substantial disturbance to native title rights and interests in the Licence Area.

8.5 In the event that the Corporation has a specific objection to any part of the particulars of the Petroleum Operations supplied by the Company under subclause 8.1 above, or to any substantial change therein of which notice has been given under subclause 8.8 below:

(a) the Corporation shall refer such objection for resolution pursuant to clause 24 within fourteen (14) days of being supplied with such particulars or given such notice;

(b) that part of the existing, intensified or changed operational program to which objection is taken shall not commence until the objection is resolved pursuant to clause 24;

(c) provided always that objection may only be taken where the matter objected to is likely to have a material adverse impact upon or cause substantial disturbance to native title rights in the Licence Area; and
(d) if no such specific objection is raised within the said fourteen (14) day period by the Corporation, the Company may proceed on the basis that the particulars provided by the Company pursuant to this clause 8 constitute the demils of the Work Program for its Petroleum Operations.

8.6 Where the Corporation receives a request for Clearance pursuant to subclause 8.1 above in respect of an Operational Area or part thereof and the Operational Area or part thereof has been the subject of prior inspection and Clearance (where the previous work program is substantially similar to the current request) in accordance with the terms and conditions of this Schedule, the Corporation shall by notice in writing within two (2) weeks of the request notify the Company that such Operational Area or part thereof shall be deemed to have been inspected and cleared in accordance with the requirements of this Schedule and subject to any conditions applicable to that Clearance.

8.7 There can be no material modification or alteration of any part of a Work Program without the written consent of the Corporation. For this purpose material modification or alteration means a modification or alteration:

(a) of any Operational Area other than a reduction in the size of that area; or

(b) of any Petroleum Operations to be carried out at an Operational Area which is reasonably likely to result in a substantially greater environmental impact than that arising from the existing Work Program.

8.8 The Company shall give notice to the Corporation if the Company at any time proposes to implement a material modification or alteration. Where the Company gives such notice after obtaining a Clearance the parties shall proceed in accordance with subclause 11.7.

8.9 Subject to the Aboriginal Heritage Act 1988 (SA), where the Company has duly complied with the processes required of it:

(a) pursuant to subclause 8.1 above, and no Clearance is conducted within sixty-eight (68) days (or such later time as the parties agree in writing); or

(b) pursuant to subclause 8.8 above for the circumstances set out in subclause 11.7(b) and no Clearance is conducted within fourteen (14) days (or such later time as the parties agree in writing); or

(c) pursuant to subclause 8.8 above for the circumstances set out in subclause 11.7(c) and no Clearance is conducted within two (2) days (or such later time as the parties agree in writing);

then it is acknowledged that the Company shall be at liberty to proceed with its Petroleum Operations at its risk.

9. INSPECTION AND CLEARANCE

9.1 The parties shall conduct all activities under this clause in accordance with Annexures A and B.
9.2 The Company will nominate a representative to assist the Scouting Team for the duration of the Clearance. The Company’s representative will:

(a) be responsible for identifying the location of proposed seismic lines, access road and other areas of proposed activity; and

(b) where possible, relocate these where, upon advice from the Scouting Team, there is likelihood of Areas of Significance being disturbed by Petroleum Operations; and

(c) have authority to agree any conditions with the Scouting Team so as to minimise the impact of Petroleum Operations to Areas of Significance, for the purposes of a Report required to be issued pursuant to clause 11 hereof.

9.3 The Company representative will accompany the Scouting Team into the field during the undertaking of the Clearance, subject to the Scouting Team’s ability to exclude the Company’s representative from its internal discussions and deliberations in the field.

9.4 In the event that a proposed Operational Area is not cleared by the Scouting Team and the Specialist will advise the Company’s representative to that effect and the Company’s representative may propose alternative Operational Areas during the course of the Clearance provided that:

(a) any such alternative Operational Areas do not constitute a material modification or alteration to the Work Program referred to in subclause 8.8; and

(b) in undertaking any Clearance of alternative Operational Areas the Scouting Team is not required to remain in the field for any additional period of time beyond two (2) days, unless agreed otherwise.

9.5 Subject to the Aboriginal Heritage Act 1988 (SA) the Company shall be absolutely entitled to rely on Clearances provided by the Native Title Holders and facilitated by the Corporation pursuant to this Schedule in which case neither the Native Title Holders nor the Corporation shall complain that Petroleum Operations conducted in accordance with clauses 8, 9, 10 and 11 hereof interfered with any Areas of Significance. The Company shall be entitled to plead this provision in defence of any complaint of interference to Areas of Significance made by any person pursuant to any Applicable Law.

9.6 The Company will:

(a) not conduct any Petroleum Operations on the Licence Area except within a Seismic Line Access Corridor or Work Site which has been cleared in accordance with clauses 9, 10 and 11 and Annexure A;

(b) comply with the conditions of the Clearance (as referred to in clause 11); and

(c) instruct its contractors, its employees, agents and visitors accordingly in relation to its obligations under subclause 9.6 (a) and (b) hereof.
10. SCOUTING TEAM

10.1 At the cost of the Company in accordance with a Budget, the Corporation will identify and organise the members of a Scouting Team for the purposes of this clause 10 and Annexure A and will ensure that the Scouting Team is ready to commence Clearance work within forty (40) days after the provision of particulars of the proposed Work Program in accordance with Annexure A.

10.2 Subject to cultural and traditional considerations, and any restrictions caused by inclement weather conditions which may prevent movement in the Operational Area and surrounding region, the task of the Scouting Team will be to:

(a) determine whether the seismic lines, access roads or Work Sites or any other activities described in the Work Program are likely to disturb, damage, or interfere with Areas of Significance;

(b) give advance warning to the Company’s representative nominated to assist the Scouting Team to enable the Company’s representative to relocate parts of seismic lines, access roads or Work Sites or any other activities described in the Work Program in order to avoid and protect Areas of Significance;

(c) show reasonable diligence in preparing for and carrying out such work while the Company meets its obligations pursuant to this Schedule; and

(d) make every reasonable endeavour to proceed with its work at a rate that will avoid any delay to the Company’s Petroleum Operations.

10.3 The Scouting Team will comprise:

(a) up to two (2) qualified Specialists of appropriate gender to be engaged by the Corporation with the concurrence of the Company (which concurrence will not be unreasonably withheld); and

(b) the number of persons required to ensure the integrity of the Clearance up to a maximum of eight (8) persons consisting of such numbers of men and women as thought by the Corporation to be appropriate in accordance with Aboriginal culture and tradition.

10.4 The Corporation acknowledges that in most areas up to four (4) persons will be sufficient to ensure the integrity of the Clearance, however it reserves the right to include up to a maximum of eight (8) people in the event that it believes it is necessary and appropriate to do so. The Corporation agrees to consult with the Company about the number of persons to be included in a Scouting Team not later than the start of negotiations for setting a budget in accordance with clause 12.

11. REPORTS

Where an interim report is provided pursuant to this subclause 11.3, the timeline within which the Corporation must provide a Report pursuant to subclause 11.1, shall be extended to no later than fourteen (14) days from the date of the interim report.

11.4 Nothing in this Schedule compels the Native Title Holders nor any member of the Scouting Team or the Corporation to disclose to the Company or to the Company’s representative the location of Areas of Significance or any Cultural Confidences whatsoever with respect to the Licence Area, but sufficient information must be disclosed to enable the Company to avoid damaging, disturbing or otherwise interfering with any Area of Significance.

11.5 The Corporation will ensure that any Aboriginal Persons accompanying the Scouting Team will have knowledge of the Operational Area to be cleared and will have the traditional knowledge and authority to determine whether there are any Areas of Significance within the Operational Area to be cleared.

11.6 In the event that the Scouting Team determines it is necessary to deviate any proposed seismic line or access road, such deviation will be made as small as possible and any deviated line or road will be returned to the original planned line or road as soon as practicable, bearing in mind the proximity of any Areas of Significance and the need to minimise unduly sharp line deflections. In the event that relocation of a proposed drill site for an exploration appraisal or development well is being considered, any movement of the proposed drill site will be minimised so far as possible.

11.7 In the event that the Company has obtained a Clearance pursuant to this Schedule 4 and subsequent events cause the Company to require any material modification or alteration (as defined in subclause 8.7) to any part of the program of Petroleum Operations or an existing cleared Seismic Line Access Corridor or Work Site which is likely to have an adverse impact upon native title rights in any part of the Licence Area:

(a) the Company will notify the Corporation as soon as practicable and request that the Scouting Team inspects and clears each area to be included in such proposed
material modification or alteration in accordance with the provisions of this Schedule 4;

(b) in such cases (other than circumstances set out in subclause 11.1(c) below) the Corporation will use its best endeavours promptly and as soon as practicable to respond to such request, either by notifying the Company in writing of its consent to such material modification or alteration or ensuring the commencement by a Scouting Team of the inspection for Clearance of those areas as requested by the Company; and

(c) in cases where Petroleum Operations are in the course of being conducted and the Scouting Team has inspected the areas requested by the Company in accordance with subclause 11.1 above, the Scouting Team will report to the Company the results of its inspection prior to leaving the area and confirm those results in a Report.

If no other amount is payable by the Company to the Corporation in respect of that taxable supply, the Company must pay to the Corporation an amount equal to the GST on that taxable supply twenty-eight (28) days after the receipt by the Company of a tax invoice from the Corporation.

23.4 For the purposes of the GST Act, the Company shall be regarded as having requested a tax invoice from the Corporation in respect of each taxable supply. Any tax invoice issued may be issued in addition to any other invoice that relates to the taxable supply.

23.5 If an adjustment event has occurred in respect of a supply made pursuant to or in connection with this Agreement, the party that becomes aware of the adjustment event agrees to notify the other party on becoming aware of the adjustment event, and the parties agreed to take whatever steps are necessary and to make whatever adjustments are required to ensure that any GST or additional GST on that supply or any refund of any GST (or part thereof) is paid as soon as is practicable but no later than twenty-one (21) days after the Corporation becomes aware that the adjustment event has occurred.

23.6 The Corporation will forward to the Company an adjustment note in respect of a supply that is subject to an adjustment event covered by subclause 23.5 above. Such adjustment note will be issued and sent no later than twenty-one (21) days after the Corporation becomes aware that the adjustment event has occurred or refunds any GST (or part thereof) in respect of that supply.

23.7 Any disputes between the parties in relation to the operation or interpretation of this clause 23 shall be dealt with in accordance with the dispute resolution procedures in clause 24 of this Agreement.

23.8 The parties agree to make any changes that are required to this clause to reflect any amendments made to the GST Act or a related Act or changes in the interpretation of any of those Acts by the courts or the Commissioner of Taxation.

23.9 In this clause 23:
24. DISPUTE RESOLUTION

24.1 Guiding Principle

The parties agree that every effort should be made to ensure that disputes do not arise and that if a dispute does occur the parties should make every reasonable effort to resolve the dispute without recourse to this clause 24.

24.2 Priority of Procedures

Unless otherwise provided in this Schedule 4, if a dispute arises between the parties concerning this Schedule 4 no party may commence any court proceedings relating to the dispute unless it has complied with the following paragraphs of this clause 24, except where the party seeks urgent interlocutory relief.

24.3 Notice of Dispute

Any party claiming that a dispute has arisen under this Schedule 4 between the Company and either or both of the Native Title Holders and the Corporation (Complainant) must give written notice (Notice of Dispute) to the other parties (Respondent). The notice must adequately identify and provide details of the dispute and refer to any documentary evidence of the matters claimed in the dispute and designate a senior representative of the Complainant who has the authority to negotiate and settle the dispute.

24.4 Response to Dispute

Within fourteen (14) days after the Respondent receives the Notice of Dispute, the Respondent must give written notice to the Complainant. That notice must adequately define the Respondent's response to the dispute and provide details and refer to any documentary evidence in support of its response to the dispute and designate a senior representative for each Respondent who has the authority to negotiate and settle the dispute.

24.5 Negotiations
Senior representatives designated pursuant to the preceding clauses of this clause 24 must, within ten (10) days (or within such further period as the senior representatives may agree is appropriate) after the receipt of the notice referred to in subclause 24.4 above investigate, negotiate and endeavour to settle the dispute.

24.6 Mediation

(a) If, within one (1) month of the date of the Notice of Dispute, the parties are either unable to resolve the dispute or no meeting has been held, the parties must mediate the dispute in accordance with the guidelines set out in Annexure D hereto, or as otherwise agreed by the parties and shall seek to agree upon the appointment of an independent mediator with relevant experience of the matter in dispute or, failing agreement within fourteen (14) days, the mediator shall be appointed by the Minister for the time being responsible for the administration of the Petroleum Act.

(b) The Minister (in determining whom to appoint as the mediator) will have regard to the parties' intentions in this Schedule 4;

(i) for the preservation and protection of the Aboriginal tradition of the Native Title Holders; and

(ii) the statutory obligations and commercial imperatives of the Company;

and will take account of the fact that this Schedule 4 constitutes a cross-cultural commercial agreement.

(c) The mediator, in conducting the mediation shall have regard to:

(i) the parties' intentions in this Schedule 4 for the preservation and protection of the Aboriginal tradition of the Native Title Holders; and

(ii) the statutory obligations and commercial imperatives of the Company.

(d) If within one (1) month after the date of the mediator's appointment, mediation has not taken place, or has failed to resolve the dispute, or in the event no mediator has been appointed within one (1) month of the Notice of Dispute, then any of the parties may by notice terminate the mediation process and may seek such remedies as they decide.

(e) Any date or period of time referred to in this clause 24 may be varied or amended by agreement between the parties.

(f) None of the parties may commence court proceedings or arbitration concerning this Schedule 4 unless it has first complied with the dispute resolution provisions contained in this clause 24. The parties agree that this Schedule 4 may be pleaded as a bar to any court action commenced prior to termination of the mediation process other than an application for urgent interlocutory itself.

(g) In any case, each party will bear its own costs for the mediation.

24.7 Without Prejudice
The parties acknowledge that the purpose of any exchange of information or documents or the making of any offer of settlement pursuant to this clause is an attempt to settle the dispute between the parties. No party may use any information or documents obtained through the dispute resolution process established by this clause 24 for any other purpose.

25. **CESSATION OF ACTIVITIES**

25.1 The Company shall notify the Corporation one (1) month prior to any surrender of a Licence in respect of the Licence Area pursuant to the Petroleum Act.

25.2 A surrender under subclause 25.1 above is effective on and from the time when the Licence is effectively surrendered in respect of the Licence Area pursuant to the Petroleum Act.

25.3 Subject to the Minister's right to require the Company to undertake rehabilitation, notwithstanding that a Licence is no longer held by the Company in relation to that land, the Company shall cease Petroleum Operations immediately if its Licence expires or is surrendered, withdrawn, revoked or cancelled in respect of the Licence Area.

25.4 Upon the surrender, withdrawal, revocation or cancellation of the Company's Licence in respect of the Licence Area:

(a) the Company will pay to the Corporation any monies then payable or accrued which are due to the Corporation pursuant to this Schedule 4; and

(b) each party will remain liable to the other party in respect of any liability it has to the other as a consequence of any prior breach of this Schedule 4.

25.5 Nothing in this Schedule will be construed as imposing an obligation on the Company to carry out or complete any Petroleum Operations.

25.6 The parties' obligations under subclauses 7.1(a), 7.1(b), 7.1(d), 15.1(a)(ii), 15.1(d), 19 and 22 will to the extent referred to therein survive any termination of this Schedule 4.

26. **EMPLOYMENT OPPORTUNITIES**

26.1 The parties acknowledge that the Project represent a major development in the region with the potential to provide significant benefits to the Native Title Holders.

26.2 The Parties agree that the benefits to the Native Title Holders can be realised by;

(a) Maximising the number of Native Title Holders employed in connection with the Project; and

(b) Developing the skills, qualifications and experience of Native Title Holders so that they are better equipped for long term employment in connection with the Project.
26.3 The Company agrees, in relation to employment of Native Title Holders, that where the Company advertises a vacancy for an employee in connection with the Project or the Determined Lands, the Company will employ a suitably qualified Native Title Holder that applies for the position in preference to a person who is not a Native Title Holder where both the Native Title Holder and the other person have otherwise equal training, experience, locality or other skills or attributes that are required for the vacancy. To the extent that the scope of the employment position includes tasks that are in relation to other areas or matters in addition to the Project or the Determined Lands, the Company will use reasonable endeavours to apply the principles of this clause 26 but the Corporation acknowledges and agrees that the Company will not be in breach of this provision if it employs a person other than a Native Title Holder for that position.

26.4 The Corporation will undertake a skills audit of Native Title Holders in order to prepare a register or database of the skills, experience and qualifications of Native Title Holders. The Corporation will ensure that the register or database is maintained so that it may be considered by the Company and its contractors.

26.5 Upon request by the Corporations and where possible, practicable, safe and if a position is available (as determined by the Company), the Company will use reasonable endeavours to provide work experience, traineeships and apprenticeships for Native Title Holders who are completing study or training in professions, trades or other jobs which form part of the Company's business (which include Accountants, Administrative Assistants, Communication Officers, Engineers, Geologists, Lawyers, Environmental Advisors and Safety Advisors).

27. BUSINESS OPPORTUNITIES

27.1 The Company acknowledges the desire of the Native Title Holders to develop business opportunities and entrepreneurial skills and capacity. The Company is supportive of this objective and:

(a) will advise the Corporation, through Native Title Holder's businesses, about business development and contracting opportunities in relation to the Project, at the earliest reasonable opportunity;

(b) will inform contractors of Native Title Holders' businesses who provide goods or services relevant to the Project, including making available to those contractors the skills register or database prepared by the Native Title Holders;

(c) all else being equal (including but not limited to locality, capability, capacity and cost), if a non-Native Title Holder business and a Native Title Holders' business are being considered for the award of the provisions of goods or services in relation to the Project, the Native Title Holders' business will be awarded the contracting opportunity;

(d) all else being equal (including but not limited to locality, capability, capacity and cost), when assessing tenders for contracts for the provision of goods or services in relation to the Project, the Company will apply a favourable weighting (which the Company will determine) in favour of tenders:

(i) that are made by or involve a Native Title Holders' business; or
(ii) demonstrate a commitment to the training and/or employment of Native Title Holders.

27.2 In the event that the Company tenders for goods or services in relation to the Project with goods and services for other parts of the Company's operations, the Company will in good faith use reasonable endeavours to apply the principles of this clause 27 but the Corporation acknowledges and agrees that the Company will not be in breach of this provision if it engages a business that is not a Native Title Holder's business or involves a Native Title Holder's business or Native Title Holders for those goods or services.

27.3 Upon request by the Corporation, the Company will provide feedback to the Corporation where any Native Title Holders related party has unsuccessful tendered for a contract and, subject to any legal requirements or restrictions, the feedback will give reasonable details of why the tender was unsuccessful.

27.4 Unless otherwise agreed, the Company will meet with representatives of the Corporation in Adelaide once a year to discuss:

(a) opportunities for tender participation by Native Title Holders' businesses;

(b) to provide an update on activities in the Licence Area that may be coming up over the next year; and

(c) to discuss opportunities available to the Native Title Holders to assist them in improving their capacity to tender for contracts.

27.5 Each party shall bear its own costs of attending and participating in the meeting contemplated by clause 27.4. The Company shall organise at its cost a suitable location for the meeting to be conducted.

28. MENTORING AND COMMUNITY SUPPORT

28.1 In recognition of the desire of the Native Title Holders to develop business opportunities and entrepreneurial skills and capacity, as requested by a party and agreed from time to time the Company will provide mentoring support for the managers and office holders of the Corporation. At the time of this agreement, the Company and the Corporation are developing mentoring relationships between the general manager of the Corporation and the Company's chief financial officer.

28.2 The intention of the mentoring program described in the preceding clause is to provide managers and officers of the Corporation with access to the experience of managers within the Company to allow discussion of issues that the Corporation faces. The Company does not intend for the mentoring program to involve the Company completing work for the Corporation.

28.3 Each year the Company will sponsor an art competition open to any Native Title Holders which will be held and judged at the Corporation's annual general meeting. The sponsorship will consist of providing the Corporation with $4,000 in prize money (or such other amount agreed between the parties). The terms of the competition will include that the Company will receive and hold the artworks that receive a prize so that
they can be hung in its offices as an opportunity to encourage cultural understanding and appreciation between the Company and the Native Title Holders.

28.4 The Corporation has identified a desire to prepare a cultural heritage guide book for the Native Title Holders. It is envisaged that the guide book would include maps showing areas of cultural significance. The Company has access to a team of mapping specialists who it can make available to assist with the preparation of the guide book. Upon reasonable request by the Corporation, the Company will co-ordinate the preparation of maps for the guidebook.
ANNEXURE A TO SCHEDULE 4: CLEARANCE PROCEDURES

1. The Corporation will provide a Scouting Team or Teams to undertake inspection and Clearing of locations for Petroleum Operations within the Licence Area if and when the requirement arises in accordance with clause 10 of Schedule 4. The composition of the Scouting Team or Teams may vary from time to time as determined by the Corporation in consultation with the Company provided that the Scouting Team or Teams will at no time comprise more than eight (8) members of the Native Title Holders.

2. The Corporation will ensure that if required, both a male and a female Specialist are available to join the Scouting Team depending on the part of the Licence Area under consideration at any given time and the Area or Areas of Significance that may be therein.

3. A Specialist, engaged according to subclause 10.3(a) of Schedule 4, will co-ordinate the Scouting Teams provided for in clause 10 of Schedule 4 and will be responsible for conveying the result of the Scouting Team's inspections and assessments for Clearance of the Company's proposed Petroleum Operations under the terms of Schedule 4.

4. Subject to the terms of Schedule 4, the Corporation will ensure that a Scouting Team is available to undertake additional inspections and Clearances for seismic lines, access roads and Work Sites as and when such sites are required by the Company in the course of carrying out Petroleum Operations. Where such additional inspection and Clearance is required, the Corporation will ensure that the Scouting Team operates on a regular work schedule that coincides with and accommodates the Company's work schedule.

5. The Corporation will arrange suitable camping facilities for the Scouting Team.

6. The Corporation will ensure that persons who are members of the Native Title Holders (but in any event not exceeding the number of persons agreed with the Company) with traditional knowledge of Areas of Significance in the particular Operational Area, together with appropriate support equipment, are available for all Clearance purposes.

7. The Company will provide or will arrange for the hire of sufficient and appropriate all-terrain four-wheel drive vehicles for use by the Scouting Team while it is undertaking the inspection and Clearance process.

8. The Company will reimburse the Corporation in accordance with an agreed plan and Budget for the Corporation's reasonable costs for:

(a) employing the services of the persons comprising the Scouting Team; and

(b) providing food, accommodation and/or camping facilities and food to the Scouting Team;

in accordance with a Budget provided under Schedule 4.

9. In the event that there are at any time more persons performing part of a Scouting Team than agreed with the Company and accounted for in a Budget then the Company will not be responsible for the expense of the additional persons in such group, unless otherwise agreed between the parties.
10. Remuneration

(a) Scouting Team Members:

(i) Consultant fully qualified Specialist – such daily rate as is agreed between the Company and the Specialist from time to time; and

(ii) Claim Group member – four hundred and fifty dollars ($450) per day, adjusted from time to time in accordance with paragraph 11 below;

all in accordance with a Budget.

(b) Food for Scouting Team

The Company will provide food or alternatively pay to the Corporation the sum of $50 per day adjusted from time to time in accordance with paragraph 11 below by way of camping and food allowance in respect of each member of the Scouting Team for each day that such member is on duty in the Licence Area or travelling to or from the Licence Area.

11. CPI Review

The Payment set out in subclauses 10(a)(ii) and 10(b) will be adjusted not more than bi-annually in accordance with increases or decreases in the Consumer Price Index (CPI)(all groups) for Adelaide during the period between the Commencement Day and the date of such review or between the date of such review and the most recent previous review under this paragraph 11 (as the case may be).

   (a) any settlement proposal whether made by a party or the mediator;

   (b) the willingness of a party to consider any such proposal;

   (c) any statement made by a party or the mediator during the mediation; and

   (d) any information prepared for the mediation.

9. **Termination of the Mediation**

A party may terminate the mediation at any time after consultation with the mediator.

10. **Settlement of the Dispute**
