RB 2018/00018, June 2018
Summary metrics:
• 200 metre line spacing
• 60m ground clearance
• 1.67M line kilometres
• 294,000 sq. km.
• Whyalla test lines (comparison of systems and radiometric survey levelling)
  • Acquisition 100% complete
  • 65% of data released (190,000 sq. km.)
  • Release est. completion by end 2019
• Value added data released: 109,000 sq km
