

File Ref: F2012/000239

7 August 2014

Mr Michael Saunders
Program Manager
Geodynamics Limited
PO Box 2046
MILTON QLD 4064

Dear Michael

Extension of Time - Fitness for Purpose Review of Facilities in Geothermal Retention Licenses (GRLs) 3 – 8

I refer to Geodynamics' letter, dated 6 August 2014, requesting an extension of time to complete the five yearly Fitness for purpose (FFP) assessment and report, required under Section 86A of the *Petroleum and Geothermal Energy Act 2000* (PGE Act) for facilities operated within GRLs 3 - 8, currently due by 31 August 2014. As the 1MW plant is currently in a mothballed state, Geodynamics request that the FFP assessment and reporting requirements be extended until and incorporated into any recommissioning process of the current plant and facilities.

Pursuant to Section 134 of the PGE Act, I hereby grant an extension of time to allow the FFP assessment to be completed and report submitted prior to any recommissioning of the facilities within GRL 3-8.

If you have any queries in relation to this matter please contact Mieka Webb on (08) 8463 3815 or Mieka.Webb@sa.gov.au.

Yours sincerely,

Michael Malavazos
Director – Engineering Operations Branch
Department of State Development
Sub Delegate of the Minister for Mineral Resources and Energy
