South Australia’s Cooper Basin is experiencing an oil and gas revolution. At present there are a number of companies competing to bring oil and gas to markets and stimulating supply-side competition, including 25 companies in 10 joint ventures for oil, and 15 companies in 6 joint ventures for gas.

The level of activity coupled with the demand for energy globally provides South Australia with a fantastic opportunity to deliver new capability and enter new markets.

Now is the time to position yourself for success.
Welcome to the inaugural Oil and Gas Supplier Forum.

Our agenda has been structured to assist you to learn more about the oil and gas industry and opportunities that may be available, as well as allowing ample networking time with other businesses. It is important to determine what level of the supply chain you intend to target. A Tier 1 company supplies goods and services directly to oil and gas Exploration and Production (E&P) companies, while a Tier 2 company supplies to a Tier 1 company, a Tier 3 company supplies to a Tier 2 company and so on (see diagram). You may find that it would be better to target a Tier 1 or Tier 2 supplier rather than an oil and gas E&P company, depending on the goods and services you offer.
Oil and gas supply chain

Geophysical survey services
- Portfolio management, asset evaluation and identification of drilling locations
- Seismic data acquisition
- Geophysical interpretation, including seismic data processing and building models for processing seismic data
- Geotechnical services – general e.g. gravity, magnetics, electromagnetic
- Geotechnical software, maintenance and support services
- Core sample analysis, storage and preservation.

Approvals
- Land access - consultations with ‘landowners’, native title and lease agreements. Includes environmental and cultural heritage services.
- Petroleum Act approvals – statement of environmental objectives, licensing and environmental maintenance.

Drilling program
- Onshore drilling rig services
- Drilling equipment – drill bits, drill pipe, blowout preventer (BOP), downhole drilling tools, directional drilling, mud motors and associated equipment
- Manufacture of drilling rigs and associated equipment e.g. for solids control in drilling mud
- Downhole measurement including logging while drilling (LWD) and wireline logging
- Casing, tubing and associated equipment, including centralisers and cross-overs, conductor pipe and other downhole equipment. Includes maintenance e.g. hardbanding of drill pipes
- Casing and tubing running services
- Cementing equipment e.g. pressure pumping
- Maintenance of drilling and workover rigs and drilling equipment including maintenance of downhole gauges, drill bits and other equipment associated with drilling

Completion
- Workover/well servicing/completion rig services (note: see also other drilling services such as fishing and logging – these also apply to workover services)
- Chemical injection services, multi-zonal isolation, multi-lateral completions
- Wireline and slickline services
- Coiled tubing
- Perforation
- Microseismic
- Hydraulic fracturing, including services, equipment and maintenance
- Proppant - sand and ceramic
- Guar and other additives
- Workover equipment
- Speciality chemicals e.g. acid
- Artificial lift e.g. beam pump, ESP (electrical submersible pump)
- Enhanced oil recovery, including waterflood, microbes
- Well control – control of blowouts
- Well maintenance services

- Solids control in drilling mud
- Oilfield fishing
- Cementing
- Drillstem testing/production testing
- Pressure testing
- Coring
- Mud logging
- Wellhead installation services
- Wellhead and associated fittings
- Cement, drilling mud, drilling fluids and additives e.g. barite, bentonite.
Processing and distribution
• Pipeline and flowline materials, construction and installation
• Process pipe fittings, valves and actuators
• Vessels, including separators, pressure vessels and oil storage tanks
• Gas processing equipment including heaters, distillation columns and heat exchangers
• Flaring equipment
• Large rotating equipment – engines, turbines, pumps, compressors
• Instrumentation and control, including remote control systems, control room. Includes installation
• Maintenance of petroleum processing and distribution equipment
• Gas processing and distribution, for example by Moomba processing plant and third party piping
• Liquids processing (e.g. Port Bonython processing plant)
• Liquefaction of natural gas and facilities for export of LNG.

Logistics and support
• Air transport, including fixed wing and helicopter as well as airport/landing strips
• Vehicles excluding heavy vehicles, e.g. vehicle hire
• Heavy vehicles and forklifts
• Vehicle maintenance
• Transport – general/bulk goods e.g. diesel, fuel, oil, proppant
• Transport of refrigerated goods (food)
• Transport of drilling rigs and associated equipment
• Waste management. Includes cutting disposal, scrap equipment, transport of waste
• Staging yard and warehousing services – Cooper Basin area
• Port, warehousing and other storage facilities in Adelaide area
• Civil works e.g. well pad construction, roads, fencing, road maintenance
• Camps and camp services, including supply of accommodation units, food, facilities management
• Non-camp accommodation (e.g. permanent facilities)
• Telecommunications services, including for remote camps and in vehicle monitoring system/GPS
• Surveying services, e.g. before well site preparation
• Medical services, including Flying Doctor
• Small rotating equipment – pumps, engines
• Fabrication
• Machining
• Electrical, including installation
• Heating, ventilation, air conditioning (HVAC)
• Gas detection, including H2S detection
• Mechanical installation services
• Plant maintenance and shutdown services
• Water, irrigation, purification, wastewater and sewerage treatment, including RO plant and treatment of flowback/production water
• Water borehole drilling and water haulage
• Inspection, testing and certification, including inspection for well integrity, drill pipe, rig, pipelines and pressure vessels
• Environmental maintenance and land management
• Cranes and lifting services
• Chemicals and chemical products, industrial and laboratory gases
• Fuel
• Waxes, oil, lubricants
• Hardware, tools, power tools
• Tubing, hoses and fittings, seals and gaskets
• Energy e.g. electricity, gas, diesel generators, solar
• PPE and safety equipment
• Training, including safety training
• Labour hire
• Water storage
• Fire suppression and alarm systems
• Laboratory services

Well closure and rehabilitation
• Decommission well – see drilling and completion (workover rig, coiled tubing, cementing etc. not duplicated here)
• Decommission above ground equipment
• Removal of facilities and pipelines (including hydro jet cutting)
• Land rehabilitation.

Professional services
• Financial services, strategic advisory services, legal, audit, safety, insurance, risk, regulation etc.
• Prequalification, certification, e.g. Achilles prequalification, API certification
• Engineering, procurement and construction management (EPCM) e.g. for production, processing, distribution systems
• Smaller projects – engineering, EPC/ EPCM. Includes EPCM sub-contractors and smaller stand-alone projects
• Services – project management. Includes drilling and completions sourcing and procurement (i.e. non-EPCM).
Note: The information contained within this directory lists attendees that registered prior to 30 September 2014, and have given approval to publish their details.

Aconex
Mark McIntyre
Regional Sales Manager
Suite 18/Brougham Plaza
8-20 O’Connell Street
NORTH ADELAIDE SA 5006
www.aconex.com
Aconex provides the #1 cloud solution to manage information and processes for the world’s largest construction and engineering projects. Aconex gives owners and contractors project-wide visibility and control between the many different organisations collaborating across its projects.

Adelaide Capital Partners
Andrew Gerlach
Chief Executive Officer
Cnr Wingfield and Hines Road
WINGFIELD SA 5085
www.adcappartners.com
Adelaide Capital Partners is an independent property development and land remediation company with a focus on establishing an oil and gas and resources hub in Gillman, Adelaide South Australia.

Adelaide Tooling Pty Ltd
Darryl Carpenter
17-19 Myuna Street
REGENCY PARK SA 5010

Allied Solutions Group
Simon Hornsey
Manager
8-10 Gumbowie Ave
EDWARDSTOWN SA 5039
www.alliedsolutions.com.au
Specialising in bunding and spill control solutions for the oil and gas industry. Helping our clients achieve clean, compliant work places with environmental safety products.

AMOG Consulting
Liam Hewitt
Lead Engineer
19 Business Park Drive
NOTTING HILL VIC 3168
AMOG is an established world leader in delivering optimal solutions and high-end advice to a broad range of complex engineering problems. Our expertise is employed across a number of industries including oil and gas, defence, mining, transport, renewable energy and civil maritime industries.

ANZ
Adam Nolan
Corporate Relationship Manager
Chris Coomans
Director
Level 21/11-29 Waymouth Street
ADELAIDE SA 5000
ANZ is one of the world’s top 25 banks (current market capitalisation of AUD89B) servicing over eight million customers in more than 32 countries. ANZ is a top 5 natural resources bank globally with a long history of assisting clients in the natural resources sector through strong industry insight and local client coverage.

Aquamate
Brett Fitch
Engineering Manager
16 Drury Tce
CLOVELLY PARK SA 5042
Aquamate is a vertically integrated fabricator and installer of flexible geomembranes and relocatable water storage tanks for municipal water and resource industry applications in Australia. Aquamate is located in Adelaide, servicing projects across the country and is third party certified to international quality and environmental standards and Australian safety standards.
**ATCO Australia**

Jessica Shaw  
Senior Manager, Business Development and Commercial Services  
Level 12, 2 Mill Street  
PERTH WA 6000

**Aurecon Australasia Pty Ltd**

Michael Hood  
Associate  
55 Grenfell Street  
ADELAIDE SA 5000  
Aurecon provides engineering, management and specialist technical services for public and private sector clients globally. With an office network extending across 26 countries, Aurecon has been involved in projects in over 80 countries across Africa, Asia Pacific, the Middle East and the Americas and employs around 7,500 people.

**Ausindustry EIP - Resources**

Mark Osborne  
Business Adviser

**Austrade**

Jeff Swingler  
Senior Investment Specialist  
Level 3/60 Collins Street  
MELBOURNE VIC 3000

Nicholas Baker  
Trade Manager - Resources & Energy  
Level 23/Aon Tower, 201 Kent Street  
SYDNEY NSW 2000

Steve Rank  
Senior Trade Commissioner, Central Europe, Warsaw, POLAND  

Austrade is the Australian government’s trade, investment and education promotion agency. The resources and energy sector is a major priority for Austrade in our work assisting Australian exporters and in attracting productive foreign investment via our extensive international network of staff.

**Australian Camp Services**

Marc Russo  
Managing Director  
12 Phillipp Street  
THEBARTON SA 5031

Australian Camp Services is a provider of catering and facilities management services to the mining, oil and gas, civil and construction sectors in remote locations across Australia.

**Australian Cultural Heritage Management Pty Ltd (ACHM)**

Neale Draper  
CEO  
446 South Road  
MARLESTON SA 5033  

Provides an experienced, professional, affordable service. Aboriginal heritage surveys, consultation, cultural heritage management plans. Expert GIS mapping. SACOME Member.

**Australian Groundwater Technologies (AGT)**

Paul Magarey  
Senior Hydrogeologist  
Unit 5/1 London Road  
MILE END SOUTH SA 5031

Australian Groundwater Technologies (AGT) is a specialist groundwater consultancy that provides services to the mining, petroleum and natural resource management sectors. AGT specialises in managed aquifer recharge (MAR) as well as traditional groundwater services such as groundwater assessments, wellfield construction and management, groundwater modelling and approvals for the mineral, energy and NRM sectors.

**Australian Guar Company**

Tony Matchett  
Managing Director  
12 Palmetto Street  
PALM COVE QLD 4879  
[www.australianguar.com](http://www.australianguar.com)

The Australian Guar Company is a green-field business, aiming to establish and develop the Australian Guar Industry as a fully integrated business from varietal selection and planting seed provision, through to grower production assistance, processing, supply, and logistics management. We are currently positioning AGC to process for the first time in Australia, Guar bean from whole seed through to the supply of processed Guar Gum, Hull and protein products for over 12 different industries from food to feed, aquaculture, mining, textiles, paper, fire retardants, environmental applications and the oil and gas fracturing sector.
Australian Mud Company

Shaun Wilson
Operations Manager
Unit 4/2-6 Chapel Street
NORWOOD SA 5067

www.amcoilandgas.com
Providing quality drilling fluid products, treating chemicals and engineering solutions to the oil and gas industry. AMC O&G drilling fluid systems can be tailored for specific applications and environments, from high temperature to depleted reservoirs and tectonically affected geology, making them the most flexible and efficient systems in the industry.

Australian Water Environments

Andrew Telfer
Director and Senior Principal Hydrogeologist

Gabor Bekesi
Principal Hydrogeologist
1/198 Greenhill Road
EASTWOOD SA 5063

www.austwaterenv.com.au
Australian Water Environments (AWE) is a South Australian-based consulting firm providing sustainable and innovative engineering, water resources, planning and natural resource management solutions for the community and our clients.

Baker Hughes

Steven Travers
Operations Director
74 George Street
THEBARTON SA 5031

www.bakerhughes.com
A top-tier oilfield service company with a century-long track record, Baker Hughes delivers solutions that help oil and gas operators make the most of their reservoirs.

Bardrill Corporation Ltd

Reid Toogood
CEO

Leon Purdie
Accountant
133-135 Rundle Street
KENT TOWN SA 5067

www.bardrill.com.au
Bardrill Corporation Ltd is a Remote Area Specialist with 30 years of experience providing civil contracting and construction solutions to the Oil and Gas Industry. Bardrill has a major presence in the Cooper Basin SA and completes significant work in the Eromanga Basin and the Roma / Fairview area QLD.
Base Transport & Logistics
Darren Bishell
General Manager
189 Grey Street
SOUTH BRISBANE QLD 4011

Basetec Services
Paul Figallo
General Manager
Con Koutsounis
Business Development Manager
344 Regency Road
PROSPECT SA 5082
www.basetecservices.com.au
Basetec Services has a proud 30 year history. We work on large scale projects across the world, with a proven history of delivering highly complex composite projects. Basetec has a technical hub for Engineering and Specialised Design work to ensure quick resolutions for technical support on large scale and difficult projects. The work we do includes GRE pipe and fittings, GRP/GRVE pipe and fittings, GRP pressure vessels, complete site installation and project management, and material design, selection and specification.

Blue Energy
John Ellice-Flint
Executive Chairman
410 Queen Street
BRISBANE QLD 4000

bnj consultants Pty Ltd
Brad Flaherty
Director
12 Prospect Road
PORT LINCOLN SA 5606
www.bnjconsultants.com.au
bnj consultants is a management consultancy based in Port Lincoln. The company provides a wide range of services to oil companies, seismic companies and associated support organisations for the oil and gas industry for both on-shore and off-shore projects. Specialties include marine logistics, shore representation, community consultation and emergency management advice and review. With a significant local network for the West Coast of South Australia, particularly for the Eyre Peninsula, the company has been able to provide localised advice and support to the oil and gas sector. bnj consultants is well positioned to advise and assist any company with integration into the communities of the West Coast and ease the operations of any company with respect to oil and gas.

Cadgile
Mark Nelson
National Sales Manager
216 Churchill Road
PROSPECT SA 5082
www.cadgile.com.au
Cadgile is a multi-disciplined computer aided design and drafting services provider which can act as your virtual CAD office. Cadgile prepares and updates engineering drawings in all its forms from simple P&ID asbuilts through to manufacturing drawing packs for large process plants.

Cal Energy
Jay Jacobsen
Chief Operations Officer/General Manager
1/12 St Georges Terrace
PERTH WA 6000

Calibre Global
Rob McDonald
General Manager Operations Development
Level 2, 70 Hindmarsh Square
ADELAIDE SA 5000
www.calibreglobal.com.au
Consulting engineers focused on the resources sector providing EPCM/EPC/D&C project delivery and professional engineering services specialising in communications, automation, security access control, geotechnical, rail, bulk materials handling and mechanical engineering.

CD Power
Gerry Branigan
CEO
Ingrid Cavallaro
Compliance Manager
354 Cormack Road
Wingfield SA 5013
www.cdpower.com.au
For 30 years CD Power has been a leader in infrastructure solutions to Australia’s oil and gas sectors. CD Designs, manufactures and services a broad portfolio from gensets, pumps, heavy duty engines and prime power equipment. CD is a competent partner for design, manufacture, service, turnkey projects, overhaul and parts supply.
Century Engineering

Andrew Sinclair
Project Sales

Philip Ooyendyk
Project Manager
148 Main Street
BEVERLEY SA 5009

www.cenman.com.au
Century Engineering Pty Ltd is a well-established leading engineering manufacturer, offering a total engineering solution to the defence, mining, power and water infrastructures and general engineering sectors within Australia. With our extensive highly accredited workshop facilities and our qualified and experienced team of engineers, we operate as a one stop shop. Together with our approved suppliers and subcontractors we understand customer requirements and provide cost effective solutions to complex and simple project requirements.

Certatech

Adam Hillary
Managing Director
Suite 4/Level 12, 24 Collins Street
MELBOURNE VIC 3000
certatech.com.au
Certatech is a privately owned company formed by a team of experienced Project and Integration Leaders. Our core competency is providing project expertise to successfully deliver large, complex projects whether they are technical, infrastructure or business transformation related. Our services include: Program and Project management, Subject Matter Expertise in the ICT sector, BuildDirector, and Learning and Development solutions.

CH2M HILL

Paul Wilkinson
ANZ Industrial, Energy And Mining Lead
Level 19/215 Adelaide Street
BRISBANE Qld 4000

Mark Favetta
Water Resources And Ecosystems Management Regional Service Lead
Level 7/9 Help Street
CHATSWOOD NSW 2067
www.ch2m.com
CH2M HILL provides full-service consulting, design, design-build, operations and program management services. As the world’s number one programme management and environmental firm, we lead the market in water technology, water management and brine management solutions. Our innovation and experience attuned to your vision can help your Cooper Basin team achieve success.

Clarke Energy

Kevin Ross
General Manager - EPC
Building 1/2-4 Stirling Street
THEBARTON SA 5031
www.clarke-energy.com
Concept Environmental Services

Kieron Jeffries  
Director

Nathan Eyears  
Business Development Manager

Dave Jackson  
509 Zillmere Rd  
ZILLMERE QLD 4034  
www.conceptservices.com.au

Concept provides modular medium to large capacity fluid storage solutions. Our team of specialist engineers works closely with our clients to provide innovative, cost-effective and environmentally sustainable solutions for different needs. Concept also provides full fluid storage project solutions including project management, civil construction for the project, project construction, asset management, operational support, ongoing maintenance and site decommissioning and remediation.

Condor Energy Services Ltd

Christian Lange  
MD/CEO  
Level 4/15 Ogilvie Road  
MT PLEASANT WA 6153  
www.condorenergy.com.au

Condor is a major partner of the Australian oil and gas industry. We choose the term ‘partner’ over ‘supplier’, as we provide our suite of well construction, optimisation and intervention services with a view to maximising our clients’ outcomes. Our aim is to provide technical engineering as well as services around drilling and the reservoir.

Consult Australia

Jan Irvine  
State Manager SA & NT  
Level 4/70 Light Square  
ADELAIDE SA 5000  
www.consultaustralia.com.au

Consult Australia is the industry association representing the business interests of consulting firms operating in the built and natural environment across Australia. We do this at a commercial, community, industry and government level through collaboration, education, support and advocacy. Member firms’ services include, but are not limited to: design, architecture, technology, engineering; surveying, legal and management solutions.

Contract Resources Pty Ltd

Phillip Jones  
Business Development  
6 Sherriffs Road  
LONSDALE SA 5160  
www.contractresources.com

Contract Resources (CR) was first incorporated in New Zealand in October 1989. Our focus was to provide specialised industrial services to oil refineries, petrochemical plants and large industrial plants where the company’s innovation, technical expertise and higher standards of health and safety would be an advantage over local and international competitors.

COOE Pty Ltd

Sean Steed  
Director  
Suite 613/147 Pirie Street  
ADELAIDE SA 5000  
www.cooe.com.au

COOE provides support to clients in the form of strategic planning and advice and project management assistance from project conception to implementation and evaluation. COOE’s experienced personnel comfortably work with Commonwealth and state legislation, enabling proficient guidance of projects through approvals, licensing and compliance requirements. We can provide a full-service from initial planning and baseline studies, documentation preparation, impact assessments, stakeholder consultation and environmental management and reporting.

Cowell Electric Supply Pty Ltd

Sue Chase  
Managing Director  
78 Schumann Road  
COWELL SA 5602  
www.cowellelectric.com.au

Cowell Electric is a powerline construction and electrical contracting company. Our core competencies are the construction and maintenance of powerlines up to and including 275kV, all types of industrial electrical contracting, plumbing, water waste, gas fitting, refrigeration and the installation of underground electrical distribution systems.

Manager, Mining Industry Participation Office

Department of State Development South Australia – ICT Roadmap

Susan Andrews
Manager, ICT Roadmap

The ICT Roadmap for Minerals and Energy is a joint initiative between the Australian Information Industry Association (AIIA) and the Government of South Australia that aims to foster collaboration between the ICT industry and the mining and petroleum industries. Its purpose is to inform the ICT industry in South Australia on future trends and opportunities to 2025 for ICT in the resources sector locally and globally. The Roadmap encourages ICT companies to develop new innovative ICT products and services that contribute to improved productivity, safety, environmental management and community engagement. Collaborative ICT innovation projects might be eligible to receive funding from the Mining and Petroleum Services Centre of Excellence.

Dialight ILS Australia

Robert Civitarese
Business Development Manager SA/NT
www.dialight.com.au

Dialight is a world leader in applied LED technology for industrial, commercial and hazardous areas. We have specialised in LED technology for 40 years and the reliability of our products is demonstrated by millions of our units installed in demanding applications over the past 15 years.
Discovery Parks

Rebecca Taylor
Business Development Manager
157 Grenfell Street
ADELAIDE SA 5000
www.discoveryparks.com.au

Discovery Parks (Discovery) is the largest owner operator of accommodation parks in Australia with a portfolio of 32 locations providing accommodation solutions for both tourist and corporate customers. Established in 2004 the company is backed by Sunsuper, majority shareholder and one of Australia’s largest superfunds, and now enjoys an enviable position within the caravan and broader accommodation industry.

Dixon Asia Pacific Pty Ltd

Simon Tape
Managing Director

Tim O’Meagher
National Sales & Marketing Manager
170 Francis Road
WINGFIELD SA 5013
www.dixonvalve.com

Dixon’s primary focus revolves around the design, test and manufacture of material transfer solutions. Our Petrochemical Life Cycle range is focused on the numerous transfer applications found in the oil and gas field and spans hose, hose fittings, hose assemblies, hammer unions, frac manifolds, valves and positive displacement chemical pumps.

Draeger Safety Pty Ltd

Kate Leahy
Segment Manager Oil And Gas
8 Acacia Place
NOTTING HILL VIC 3168
www.draeger.com

Draeger Safety Pacific supplies, manufactures and services a complete and diverse range of safety products for the oil and gas industry. Products supplied include self contained breathing apparatus (SCBA), chemical protection splash suits and fully encapsulated chemical protection suits, breathing air compressors, compressed air escape units, specialised breathing air solutions, portable gas detectors and gas detection tubes, fixed gas detection systems, filtration and disposable masks, equipment rental and shutdown services and training services.

Drillsearch

Dale Price
Supply Chain Manager
Level 16/55 Clarence Street
SYDNEY NSW 2000
www.drillsearch.com.au

Leela Hanson
State Director SME
Level 26 Exchange Plaza
PERTH WA 6000
www.efic.gov.au

Energy Power Systems Australia

Darryl Bull
Branch Manager South Australia
96 Bedford Street
GILLMAN SA 5013
www.catrentalpower.com.au

Energy Power Systems Australia (EPSA) is the Cat® engine dealer for Australia, Papua New Guinea and the Solomon Islands. EPSA sells and rents Caterpillar engines and also designs, engineers and commissions a range of turnkey products and applications.

Ensign International Energy Services

Peter Koutsoukos
Oil & Gas Division Manager - Australia
15-17 Westport Road
EDINBURGH NORTH SA 5113
www.ensignenergy.com

Ensign International Energy Services specialises in the drilling of all forms of hydrocarbon and geothermal wells in the global market. Services include drilling for oil, gas, geothermal energy, shale gas and coal seam gas; the completion and servicing of existing wells; coring services; and the supply of oilfield equipment.

Environmental Water Services

Phil Amor
Director
9 Light Crescent
MOUNT BAKER SA 5251
www.goews.com.au

Based in Adelaide and operating throughout Australia, Asia and the Pacific regions, EWS designs and manufactures water and waste water treatment plants for sewage treatment, desalination, reverse osmosis, brackish water and fracking water.
Enware Australia Pty Ltd

Mark West
National Projects Manager
8 William Street
MILE END SA 5031
www.enware.com.au
Enware Australia is a world-leading supplier of specialist air, water and gas solutions. Enware’s safety solutions include emergency shower range and self contained relocatable options; emergency response equipment; First Applied Sorbent Treatment Against Chemical Threats (FAST-ACT); spill management systems including salvage drums and ENPAC range of secondary containment and spill prevention equipment; and Tobin Eyewash Systems providing sterile and safe eyewash for industrial use.

Epic Energy South Australia

Jonathan Teubner
Manager, Commercial
26 High Street
DRY CREEK SA 5094

Esri Australia

David Floreani
Business Development Manager
Esri Australia is the nation’s leading Geographic Information Systems (GIS) specialist. From exploration and asset management, to environmental impact and community engagement programs, GIS is transforming mine operations – driving efficiency and profits. ArcGIS integrates multiple applications to produce a world-class customisable solution for subsurface investigation and analysis.

EY (Ernst And Young)

Martin Bowens
Director
121 King William Street
ADELAIDE SA 5000
EY is a global leader in assurance, tax, transaction and advisory services. The insights and quality services we deliver help build trust and confidence in the capital markets and in economies the world over. We develop outstanding leaders who team to deliver on our promises to all of our stakeholders.

Farley Riggs

Edward Riggs
Managing Director
Level 12/90 King William Street
ADELAIDE SA 5000
www.farleyriggs.com.au
One of Australia’s largest drill stem testing, surface well testing and data acquisition service providers, Farley Riggs Pty Ltd is dedicated to delivering innovative, cost-effective and best-in-class solutions to oil and gas companies around the world.

FK Gardner And Sons Pty Ltd

Dallas Hunter
Developments Manager
275 McDougall Street
TOOWOOMBA QLD 4350

FMG Engineering

Gary Turnbull
Laboratory Manager
26 Beulah Road
NORWOOD SA 5067
www.fmengineering.com.au
Furmanite Australia

Paul Whitton  
507 Cross Keys Road  
CAVAN SA 5094  
www.furmanite.com.au  
Furmanite is the worldwide innovator and leader in comprehensive on-site and on-line plant and pipeline maintenance. Our company’s single mission and goal is to maximise asset uptime for our customers from many industries by providing services such as leak sealing, hot tapping and line stopping, on-site machining and field heat treatment and more. Specifically, everything Furmanite does directly relates to keeping an asset up, productive and profitable, be it a pipeline, a plant or personnel. Rely on Furmanite.

Fyfe Pty Ltd

Tanja Stefanovic  
Division Manager SA Energy and Resources  
Level 7/30 Flinders Street  
ADELAIDE SA 5000  
www.fyfe.com.au  
Fyfe is a well established land, resource and infrastructure development consultancy specialising in comprehensive engineering, environmental, planning and surveying services for land development, energy, mining and oil and gas industries across Australia. With offices which include central Australia, Fyfe is well placed to deliver services to remote locations.

Global Maintenance USG

Greg Clothier  
Chairman  
www.gmsug.com.au  
Global Maintenance USG is a supply chain cluster of 125 suppliers and contractors servicing the resources and energy sector. Our mission is to maximise local and South Australian supplier participation in new projects and ongoing maintenance markets.

Golder Associates

Lissa Van Camp  
Senior Consultant  
Toby Carter  
Client Development Manager  
118 Franklin Street  
ADELAIDE SA 5000  
Consultancy providing ground engineering, water supply and management and environmental approvals services to the oil and gas industry in South Australia.

Halliburton Australia Pty Ltd

John Warren  
Senior Business Development Manager  
Mary McGowen  
Chemicals And Compliance Advisor  
Level 10/147 Pirie Street  
ADELAIDE SA 5000  
Paul Rees  
Land Freight Supervisor - Australia  
3-9 Birmalee Road  
REGENCY PARK SA 5010

Hardy Spicer

Jason Harrison  
Industry Specialist  
12 Pradella Street Darra  
BRISBANE QLD 4076  
www.hardyspicer.com.au  
Hardy Spicer oil and gas products for the Australian market. Specialty oilfield hose assemblies and API certified hoses, API hammer unions, safety restraints and flow control products available. Providing quality engineered products and custom solutions tailored to individual needs for oil and gas requirements. Providing specialised industrial and API products.

Hatch

Sanddeep Dalvi  
Energy Director  
61 Petrie Terrace  
BRISBANE QLD 4000  
www.hatch.ca  
Hatch is an employee-owned, multidisciplinary professional services firm that delivers a comprehensive array of technical and strategic services, including consulting, engineering, process development, and project and construction management to the mining, metallurgical, energy and infrastructure sectors. The energy business unit supports gas monetisation including LNG, hydrocarbon processing and heavy oil development in Australia, Brazil, Canada and South Africa. Hatch also provides services in asset management, dynamic modelling, CFD, environmental services, water management and transmission and distribution.
Hindmarsh Plumbing

Kevin DeCean  
Business Development Manager

Rob Pavan  
General Manager

Toby Kemp  
Mechanical/Industrial Manager
27 South Road  
HINDMARSH SA 5007

www.hindmarshplumbing.com.au

The Hindmarsh Industrial Services division provides industrial and mechanical expertise for a wide variety of clients and projects. We specialise in tailored spooling and fabrication packages for the petrochemical and mining industries, water infrastructure and mechanical services. We pride ourselves on the ability to deliver projects from conception to completion.

HRL Imports Pty Ltd

Chris Komen  
General Manager
677 Springvale Road  
MULGRAVE VIC 3810

Teletraffic Research Centre

Bruce Northcote
c/o TRC University Of Adelaide
ADELAIDE SA 5005
Telecommunications network modelling and analysis is inherently an application of mathematical techniques from the discipline of operations research. Consequently, there has been significant demand for our problem solving skills in areas outside of telecommunications, in particular in optimisation of manufacturing and resource usage processes. Our clients range from major car makers such as Holden to road paving companies such as Emoleum and foam producers such as Dunlop Foams Group. In addition to bringing cost savings to our partners, our skills help them to understand their internal operations and identify opportunities for more efficient production processes and use of capital investment.

Partnering with the Government of South Australia, Santos Limited, BHP Billiton and other key industry players, UCL Australia delivers world-class research and education, with industry input and focus.
The University of Adelaide is a centre of excellence for fundamental and applied research, innovation, and technology transfer in petroleum research, principally through its Institute for Mineral and Energy Resources, which spans expertise in earth sciences, resource engineering and energy technology to address interdisciplinary challenges together with industry and government.

VAPP Australia Automotive Systems Pty Ltd

Lawrence Li
Vice-General Manager
29-33 Woowera Avenue,
EDINBURGH SA 5111
The **Department of State Development** drives economic growth and job creation. The department works with business, the education sector, community and other partners to create and build industry and employment opportunities across the state.

The department is responsible for the state’s growing resources and energy portfolio, our transformation to high-value manufacturing, skills formation, employment and science.

It also focuses on skills development, job creation, business development and sustainable employment for Aboriginal people. It develops and emphasises government policy that promotes Aboriginal affairs and supports young Aboriginal people and those living in regional and remote South Australia.
The department supports businesses and individuals in regions across the state, recognising their challenges and opportunities.

The Department of State Development is positioning South Australia to capitalise on our high growth, high-value sectors, including mineral and resources, information and communications technology, defence, agribusiness, advanced manufacturing and renewable energy.

Combining industry and workforce functions into a single department harnesses the full range of government services, delivery functions and support activities to drive economic transformation and wealth.
