I. The issuing of the Licences is subject to the non-extinguishment principle, as defined in section 238 of the Native Title Act;

J. If the Licences are issued to the Company in accordance with the Petroleum Act it is the intention of the parties that the grant of the Licences, and any work done pursuant to them, affects any native title rights and interests held by the Native Title Party, if at all, only to the extent necessary for the grant of the Licences and carrying out work pursuant to them, and it is the further intention of the parties that in any event, the grant of the Licences and activities under them will not extinguish or permanently affect such rights and interests;

K. Following negotiations in good faith between the parties, the Native Title Party has agreed to the grant of the Licences to the Company on the terms set out in this Deed; and

L. The State, the Native Title Party and the Company, all having negotiated in good faith, have agreed for the better management of interaction between them hereafter and for the purpose of more efficiently managing certain administrative functions under this Deed for the benefit of the Native Title Parties as are more specifically set out in this Deed, to include the Association as a party to this Deed

8.12 The provisions of clause 8.10 and 8.11 do not apply in relation to any compensation claim arising by reason of a breach of this Deed.

9. ABORIGINAL HERITAGE PROTECTION

9.1 The Company, the Native Title Party and the Association must comply with the terms of Schedule 4 which provide:

(a) certain terms and conditions with which the Company has agreed to abide by in the course of carrying out the Project on the Licence Area; and

(b) the methodology for the identification and protection of Areas of Significance.

9.2 The Company's obligations under Schedule 4 are not dependent upon the Native Title Party establishing native title over the Licence Area or obtaining a
determination of native title.

10. STATE NOT LIABLE FOR SCHEDULE 4 PROVISIONS

The Company, the Native Title Party and the Association acknowledge that neither the State nor its officers, employees or agents have any obligations or liability whatsoever in connection with the rights and obligations of the Company, the Association or the Native Title Parties under Schedule 4.

11. DEED NOT CONDITION OF GRANT

The provisions of this Deed (other than the obligations of the Company and of the State contained in clause 8) are not terms of the grant of a Licence under the Petroleum Act.

12. DEED PREVAILS

The Company, the Native Title Parties and the Association acknowledges that the provisions of this Deed prevail over the provisions of Schedule 4 to the extent of any inconsistency.

13. ENVIRONMENTAL PROTECTION AND REHABILITATION

The Company will comply with the environmental protection procedures required by all Applicable Law relevant to its activities in connection with the Licences.

14. NO ACKNOWLEDGEMENT OF NATIVE TITLE

By entering into this Deed the State and the Company do not acknowledge any concluded position as to the existence or otherwise of native title to any land the subject matter of this Deed.

15. ASSIGNMENT

15.1 Subject to this Clause 15, the Company may at its absolute discretion assign, transfer or novate the whole or part of its interests in this Deed.

15.2 If the Company assigns or transfers the whole of its interest in the Licence Area, the Company will procure that the party thereby acquiring that interest in the Licence Area enters into a deed of assumption whereby the incoming party covenants to assume the obligations of the Company with regard to the other parties, and to be bound by the terms and conditions of this Deed as if it
were a party to this Deed and the Company shall thereby be released from any further obligation arising under this Deed save for any obligation arising prior to the date of such assignment or transfer.

15.3 If the Company assigns or transfers one or more of the Licences (other than an assignment of an interest therein by way of farm-out in joint venture), but not the whole of its interest in the Licence Area then the Company will procure that the party thereby acquiring that interest in the Licence Area enters into a deed of assumption whereby the incoming party covenants to:

(a) assume the obligations of the Company with regard to the other parties, other than the obligations under Clause 7, (which subject to Clause 15.4 will continue to bind the Company), and to be otherwise bound by the terms and conditions of this Deed as if it were a party to this Deed to the extent of the interest so acquired by the incoming party; and

(b) pay to the Association an Administration Payment in addition to the Company’s ongoing obligations under Clause 7 as follows:

(1) if the transfer of the interest occurs in years 1 to 5 of the term of this Deed the amount of $15,000.00 per annum per Licence so acquired (pro rata to the area of such Licence falling within the Claimed Land) for the balance of that 5 year term and thereafter the amount set out in Clause 15.3(b)(2) (pro rata to the area of such Licence falling within the Claimed Land from time to time) for the following 5 years;

(2) if the transfer of the interest occurs in years 6 to 10 of the term of this Deed, the amount of $5,000 per annum per Licence so acquired (pro rata to the area of such Licence falling within the Claimed Land) for the balance of that further 5 year term.

15.4 If the amount of the Administration payment payable by the Company under Clause 7 and the amount payable by the incoming party pursuant to Clause 15.3(b) in aggregate would exceed the amount of $15,000.00 (in respect of years 1 to 5 of the term of this Deed) and/or $5,000.00 (in respect of years 6 to 10 of the term of this Deed), per annum per Licence (pro rata to the area of the Licences falling within the Claimed Land) then the amount of the Administration Payment payable by the Company under Clause 7 in accordance with Clause 15.3(a) shall be proportionately reduced so as to avoid that situation.

15.5 Nothing in this Deed obviates any statutory requirement for prior approval of the Minister in relation to any assignment, transfer or novation.

PEL work commitments for PIRSA Mar 2006 (2) doc
Total PELA 119: 1 well + G&G: $500,000

Total of re-distribution of work programs and indicative expenditures for seven (7) PELA's:

Twelve (12) wells and Indicative Expenditures of $5,200,000, which is same number of wells but overall costs have increased by $2.5 million from $2.7 million due to the increased numbers of PEL's from three to seven and the need to have additional work program for each year.

Depending on the results of the exploration program, we would seek to consult with the Petroleum Group of PIRSA on any program variations to optimise the exploration efforts.

GSP and Eastern have an exploration focus on providing gas to the eastern Australian states. The main area of interest is PEL 238, located in the Gunnedah Basin, NSW where over $35 million has been spent over the last three years on drilling eighteen wells, fracture stimulating seven wells and placing these wells into production. In addition, 484 kilometres seismic data has been acquired and the existing seismic data set has been reprocessed. Exploration drilling is currently being conducted within the licence. Eastern also has interests in or rights to NSW exploration licences PEL 6 and PEL 8, both of which are ideally located to supply gas to the large eastern Australian markets.

We look forward to PIRSA processing our application and if you require any additional information or a meeting to discuss please contact the undersigned.

Yours faithfully,

Dennis J. Morton
Director.

1. Reginald Dodd an applicant herein was born at Finniss Springs in the claim area and has resided all his life within the claim area. He currently lives in Marree. Throughout his life he has continued to use and enjoy the area by camping and hunting on it and by protecting sites of significance and making decisions about the use and enjoyment of the area by others by attending on site inspections. He has participated in cultural activities in the area, educated others in the Arabunna culture and traded in resources from the area.

2. The applicant Laurie Stewart was born in 1912 at Anna Creek within the claim area and resided for most of his life within the claim area. He currently resides in Port Augusta. Throughout his life he travelled through the claim area, hunted in the claim area, has participated in maintaining and protecting the environment of the area and Aboriginal sites by attending on heritage work clearance activities, has taught others about the Arabunna language and has participated in ceremonies and cultural activities within the area, in particular ceremonies conducted in his youth near Curdimurka.

3. Millie Warren an applicant herein was born in 1935 and grew up at Finniss Springs. She currently lives in Port Augusta. During her childhood and formative years Mrs Warren was aware of ceremonies conducted by senior members of the group but did not participate in these because of her youth. She was taught about women’s knowledge by her mother and other senior women. Other knowledge that she was given included dance, body painting and story telling related to the participation in ceremonies. She was taught about native food resources, their collection and preparation. Throughout her life she has participated in the maintenance of mythological stories and sites within the claim area and taught this information to her children and grandchildren.

Millie Warren has taught Arabunna language and culture at the Port Augusta Secondary School and is actively participating in the preparation of an ‘Arabunna Book’ for the South Australian Department of Education.

Mr. Christopher Doeppel
National Native Title Tribunal
PO Box 9973
PERTH WA 6001

Dear Mr. Doeppel

Re: Certification Arabunna Application for a Determination of Native Title
NNTT - SC98/02, Federal Court No. SG 6025/98

The Aboriginal Legal Rights Movement (ALRM) being a representative Aboriginal
and Torres Strait Islander body determined under s.202 of the Native Title Act 1993
(as amended) (Commonwealth) “NTA hereby certify the Arabunna application for
determination of native title (SC 98/02) Federal Court No. SG 6025/98 “the
application” under paragraph 202(4)(d) of the Native Title Act 1993 (as amended)
being of the opinion that the requirements of paragraph 202(5)(a) and (b) have been
met.

Reasons:

(1) In relation to paragraph (5)(a)
ALRM is satisfied that those individuals who attended the Arabunna Community
Meeting held at Marree on 12th and 13th day of March 1999 endorse the named
applicants Mr. Reginald Dodd, Mr. Laurie Stewart, and Ms Millie Warren and gave
them authority to make application number SG6025/98 and deal with matters arising
in relation to it on behalf of all of the other persons in the Arabunna native title claim group.

ALRM is satisfied that all of the people in the native title claim group as well as the applicants, were represented at the time that authority was given because:

(a) prior to holding this community meeting notices advising the claimant group that the meeting was being held for the purposes of certification and the new registration test were sent to claimant group members whose names had been collected at previous community and bilateral meetings as well as those provided by the solicitor for the claimant group. In late February notices were sent to ALRM offices in Port Augusta accompanied by instructions to distribute them within the Aboriginal organizational network. Public notices explaining the purposes of the meeting were broadcast to regional South Australia on Impaja Television Wednesday 3rd March and Saturday 6th March and Umeewarrra Media from Monday 1st March until Friday 12th March. Public notices were also placed in the Transcontinental Newspaper and the Coober Pedy Times.

(b) the approximately 40 people who attended the Arabunna Community meeting held in Marree on the 12 and 13 days of March 1999 asserted that they were representative of the key Family groups that make up the Arabunna. This is confirmed by ALRM's Anthropologist, Ms Geraldine Hodgson, who was in attendance at that meeting, based on her knowledge of the claim group and through her own inquires of a large number of the members of the claim group, and having regard to the available historical and genealogical material, attendance lists from previous Arabunna meetings and archival verification of those persons who were understood to comprise the Arabunna native title claim group.

It should be noted that although the issue of authority was formalised by way of resolution ALRM are of the opinion that the authority given by the
Arabunna claim group in accordance with paragraph 251B(a) NTA.

(2) In relation to paragraph (5)(b)

ALRM staff since late January 1999 at the request of the Arabunna claimants, have consulted with members of the Arabunna group and their solicitor in order to describe and otherwise identify all persons in the native title claim group for the purposes of the application.

The person assisting the applicants have made the following efforts to describe of otherwise identify the Arabunna claim group:

- since March 1999 Ms. Geraldine Hodgson the Anthropologist employed by ALRM has consulted with Ms. Bronwyn Hodgson who is currently working on the genealogies for the Arabunna in order to assist in identifying the claim group.

- regard has been given to Aboriginal people identifying as Arabunna attending community meetings and bilateral meetings with overlapping claim groups between October 1996 and March 1999 and in particular, those in attendance at the certification meeting held at Marree on 12th and 13th March 1999;

- ALRM's Historian Mr. Tom Gara has provided assistance with historical information which has been reviewed by the anthropologists;

Given the administrative deadline of 30/04/99 set by the Tribunal for the Arabunna applicants to present information to the Tribunal for the purposes of registration, as a result of the application of the expedited registration provision of sub-section 190A(2) which commenced on the 29/01/99, ALRM are of the opinion that all reasonable efforts have been made by or on behalf of the applicants to ensure that the application describes of otherwise identifies all persons in the Arabunna native title claim group.
In ALRM's view, given the time constraints mentioned above, the application sufficiently describes or otherwise identifies all the members of the Arabunna native title claim group.

(3) **Overlapping applications for determination of native title**

ALRM have made the following efforts to achieve agreement relating to native title over land or water between the overlapping claimant groups and to minimize the number of applications covering the land and waters covered by the Arabunna application for determination of native title. The specific meetings held for this purpose are:

- Arabunna ALMAC bilateral – William Creek 17 10.96
- Arabunna involved in the Dieri Mitha Plenary Port Augusta 24 10.96
- Arabunna involved in Dieri Mitha Working Party Meeting Port Augusta 30.11.96
- Arabunna involved in Dieri Mitha Plenary Port Augusta 05 08.97 06.08.97
- Arabunna Certification meeting -- Marree 12 03.99 and 13 03.99
- Arabunna / Kuyani bilateral – Coober Pedy 15.03.99
- Arabunna / ALMAC bilateral – Coober Pedy 16.03.99
- Arabunna / Yankunytjatara Antakirinja bilateral Coober Pedy 16.03.99
- Arabunna / ALMAC bilateral Coober Pedy 22.04.99
- Arabunna / Kuyani bilateral Coober Pedy 23.04.99

At a bilateral facilitated by ALRM between the Arabunna (SC98/02) and Yankunytjatara Antakirinja (SC97/09) the Arabunna withdrew their claim to abut the boundary of the Yankunytjatara Antakirinja (SC97/09) native title claim.

In summary, the overlap between the Arabunna and Yankunytjatara Antakirinja (SC97/09) has been removed.
No agreement has yet been reached in relation to the overlap between the Arabunna (SC98/02) and Kuyani (SC96/04), Antakirinja Mutunjjarra (SC 95/07), Barngarla (SC 95/04), Dieri Mitha (SC 97/04), Kokatha (SC 96/06) or Coulthard Adnyamathanha (SC 94/01) ALRM intends to conduct further meetings in order to mediate and achieve agreement in relation to the overlaps that prevail.

There are also the following applications which marginally overlap Arabunna application, namely, Wangkangurru & Yarluyandi peoples (SC97/03)(137.552sq km) and Dieri Yandruwandha (SC97/04)(301.815sq km) ALRM have confirmed with the solicitor for the Arabunna that the above named applications overlapping with the Arabunna claim (SC98/02) are inadvertent and the result of mapping errors and the solicitor has approached the National Native Title Tribunal with this information.

In light of the information provided above ALRM is of the opinion that all reasonable efforts have been made with respect to the overlapping applications in accordance with sub-section 202(6) of the Native Title Act 1993 (as amended)

Sincerely

[Signature]

prior to delivery or in transporting the substance to the point of delivery to the purchaser, including but not limited to the amount of any licence fees payable in respect of any production licence, associated facilities licence or pipeline licence, provided however that:

(c) Interest Rate

For the purpose of clause (2)(a), the interest rate shall be one half of the long term Australian Government Bond Rate for bonds of a 10 year term as published at the end of the month in which the capital expenditure was made. (e) Sale of Plan
SCHEDULE 3:
Guidelines for Payment of Royalty and Provision of Information issued by the Department of Primary Industries and Resources of South Australia

Notwithstanding the provisions of clause (2), if an item of plant is sold by a Producer ("the first Producer") to another Producer, or to a company that becomes a successor or assign of the first Producer ("the second Producer"), the second Producer may only depreciate the plant to the extent to which the first Producer was, immediately before the time of sale, entitled to depreciate the plant.

(f) Take or Pay

For the purposes of this clause and of calculating the gross sales value of the substance, where the Producer enters into an agreement commonly known as a take or pay agreement, any payment received by the Producer in respect of petroleum which has been paid for but not been taken shall be treated as part of the gross sales value of the substance at the time of receipt of payment by such Producer and not at any other time.

(g) Tolling

(i) If the Producer receives any revenue from the use of any plant downstream of the wellhead used for treating processing or refining the substance sourced from anywhere within the area from time to time comprised in Exploration Licence.... or any Production Licence issued from an area which was comprised in Exploration Licence....immediately prior to the time such Production Licence was issued, or in transporting such substance to the point of delivery to the purchaser such revenue shall be deemed to be part of the bona fide sales value of the substance to the intent that royalty shall be payable thereon.

(ii) Any sums, being sums deemed under clause (3)(g)(i) to be part of the bona fide value of the substances, paid by the Producer in respect of the use of such plant for treating processing or refining such substance or in transporting such substance to the point of delivery to the purchaser shall be deemed to be an expense under clause (2)(c).

(iii) If any such plant is used for treating processing of refining of the substance sourced from outside of the area referred to in clause (3)(g)(i) or in transporting such substance to the point of delivery to the purchaser any amounts which may be claimed as deductions under this clause (whether such deductions be by way of operating expenditure or capital expenditure) in respect of such plant shall be reduced by the proportion which would be obtained by the method of apportioning costs used by the Producer to ascertain the tolling fee, but any revenue received by the Producer for the use of such plant for the treating, processing or refining of such substance prior to delivery or in transporting the substance to the point of delivery to the purchaser shall not be deemed to be part of the gross sales value of the substance.
(4) Royalty Returns

(a) Not later than thirty (30 days after the conclusion of each calendar month, the Licensee will calculate and notify to the Minister the royalty, calculated by taking the *bona fide* sales value of the substance sold in that month, and deducting therefrom the most recent estimated monthly expenditure provided under clause (4)(c), payable by each Licensee. The Licensee shall with each such notification provide the Minister with a statement, in a form approved by the Minister, advising of the quantity of the substance sold and the amount realised upon such sale during the last preceding month, together with such other information as the Minister may require.

(b) The Licensees shall not later than thirty (30) days after the conclusion of each calendar month pay to the Minister the amount of royalty specified in the notice referred to in clause (4)(a) as payable.

(c) On or before each 15th March (in respect of the next succeeding twelve (12) month period commencing 1st July), the Licensee shall *bona fide* estimate the sales volume of the substance, the sales value of the substance, the allowable deductions apportioned between capital and operational deductions and hence calculate the estimated royalty payable for the next succeeding twelve (12) month period and shall provide the Minister with such estimates, together with the apportionment thereof on a monthly basis. A review of such forecast will be required if significant change to the forecast is evident. The Licensee will be required to provide a *bona fide* forecast as necessary for up to a period of 5 financial years including detail as referred to above but excluding a monthly apportionment for all but the preceding twelve (12) month period.

(d) Not later than thirty (30) days after the completion of each twelve (12) month period concluding on each 30th June the Licensee shall reconcile the estimated expenditure with the actual expenditure and reconcile all calculations of royalties and shall provide the Minister within the said period of 3 days with copies of such reconciliations, together with a notice advising the Minister of any additional royalty calculated in accordance with the reconciliations as payable by each Licensee. If any such reconciliation shows that the total of the amounts of royalty paid during the last preceding 12 months was in excess of the amount of royalty which should have been paid for that period, the difference may be set off against royalty payable in the next succeeding months provided however that any expenses allowed as a deduction under clause (2)(b) to clause (2)(e) inclusive shall not be carried forward for a period of greater than 12 months from the month of expenditure.

(e) The Licensee shall not later than thirty (30) days after the completion of each twelve month period concluding on each 30th June pay to the Minister the additional royalty calculated in accordance with the reconciliation referred to in clause (4)(d) as payable by the Licensee.
(f) The Licensee shall at its cost cause the royalty calculation reconciliations submitted by the Licensee to be audited by the auditor appointed by the Licensee to audit its own accounts (provided that such auditor must be a duly registered auditor in Australia) and the Licensee shall forward a copy of the auditor's report in respect of a particular reconciliation within 3 months of the receipt of such reconciliation by the Minister, such report to be accompanied by a certificate by the auditor that the reconciliation is in accordance with these guidelines.

(g) The Minister shall in accordance with Section 43(8) of the Act assess the value at the wellhead of the substance produced by the Licensees and may require the Licensee to pay within 30 days of the date of notice of such assessment the additional royalty determined by the Minister as payable.

   (a) An annual payment of $40,000.00 during each of the first five (5) years of the term of this Deed;

7.3 The obligation of the Company to make the payments referred to in Clause 7.1 shall cease in the event that the Company ceases to hold any Licences which fall within the Claimed Land.
8. PRODUCTION PAYMENT

8.5 In the event the method of calculation contained in the Petroleum Act as at the date hereof is fundamentally changed so as to occasion a material disadvantage to the State in the State’s administration of clauses 8.2, 8.3 and 8.4, the Minister may give six(6) calendar months notice in writing to the other parties of the Minister’s desire to re-negotiate the method of collection and distribution of monies in terms of this clause 8 in which case the parties must promptly negotiate in good faith in an endeavour to agree an alternative payment scheme acceptable to all the parties.

8.6 The receipt by ALMAC of a payment due under this Clause shall be a full and sufficient discharge to the Minister and to the Company for any payments made to the Native Title Party pursuant to clause 8.

8.7 Nothing in this clause 8 is intended adversely to affect the integrity of the Native Title Applications.
8.8 Nothing in this clause is intended to impose on the State a duty to invest any monies collected by the State for distribution to ALMAC.

8.9 The Native Title Party agrees that the compensation entitlement comprising the monies payable by the Company pursuant to clause 8.2 and Clause 19 are in full and final satisfaction of all liabilities, actions, determinations, orders, claims or demands for compensation, damages, restitutions, benefits or loss whatsoever, whether arising under any State or Commonwealth statute or at common law or equity or otherwise, which the Native Title Party may now or in the future have, or but for this Deed might have had, against the Company and/or the State and/or their respective employees, officers, agents or contractors in connection with any actual and/or potential extinguishment of, and/or effect or impact on, any native title or claimed native title of the Native Title Party in consequence of or arising out of or in relation to the Licences and the exercise of rights or the discharge of obligations by the Company under the Licences ("Compensation Entitlements").

8.10 The Native Title Party and ALMAC release the Company and the State from, and acknowledge that this Deed may be pleaded as an absolute bar against, all such Compensation Entitlements, liabilities, actions, claims or demands.

8.11 The Native Title Party and ALMAC will not make any application or claim against the Company or the State or any other person in any court, tribunal, commission or any other competent body, including the National Native Title Tribunal for compensation, restitution, benefits, damages or any other amount (whether to be held in trust under the Native Title Act or otherwise) in connection with any such Compensation Entitlements, liabilities, actions, claims or demands.

8.12 The provisions of clause 8.10 and 8.11 do not apply in relation to any compensation claim arising by reason of a breach of this Deed.

9. ABORIGINAL HERITAGE PROTECTION

9.1 The Company, the Native Title Party and ALMAC must comply with the terms of Schedule 4 which provide:

(a) certain terms and conditions with which the Company has agreed to abide by in the course of carrying out the Project on the Licence Area; and

15.2 If the Company assigns, transfers the whole or part of an interest in a Licence, the Company will procure that the party thereby acquiring that interest in the Licence enters into a deed of assumption whereby the incoming party covenants to assume the obligations of the Company with regard to the other parties, and to be bound by the terms and conditions of this Deed as if it were a party to this Deed to the extent of the interest so acquired by the incoming party.
15.3 In the event that a Body corporate is incorporated in substitution for ALMAC ("New Body Corporate"), the Native Title Party shall procure that the New Body Corporate immediately upon its incorporation, execute a Deed Poll, in a form reasonably acceptable to the Company and the State, covenanted to be bound by and to assume the obligations of ALMAC as if the New Body Corporate were named as a Party to this Deed.

PEL work commitments for PIRSA Mar 2006 (2).doc
Total of re-distribution of work programs and indicative expenditures for seven (7) PELA's:

Twelve (12) wells and Indicative Expenditures of $5,200,000, which is same number of wells but overall costs have increased by $2.5 million from $2.7 million due to the increased numbers of PEL's from three to seven and the need to have additional work program for each year.

Depending on the results of the exploration program, we would seek to consult with the Petroleum Group of PIRSA on any program variations to optimise the exploration efforts.
Dear Mr Laws,

RE: PEL Application (1) for Vacant Area - Arckaringa Basin

SAPEX Pty Ltd ("SAPEX") hereby applies for a petroleum exploration licence (PEL) under the Petroleum Act 1940 ("The Act") and Petroleum Regulations 1989 ("Regulations"), or its successor, to explore for conventional petroleum and coalbed methane. SAPEX whose directors include David King, Pat Elliott and Dennis Morton is a company jointly owned by Great Southland Petroleum Pty Ltd ("GSP") and Barb Wire Holdings Pty Ltd ("Barbwire").

GSP is the parent company of Eastern Energy Australia Pty Ltd ("Eastern") and whose shareholders are companies associated with Doug Battersby, David King and Dennis Morton. Barbwire is a company in which Pat Elliott is a major shareholder.

The following information is provided in support of the application:

APPLICATION AREA (1):

Approximately 21,460 square kilometers as described and outlined in the attached documents.

The Year 1 work program will involve the acquisition and interpretation of all available coal bore, water bore, petroleum exploration well data, gravity & magnetic data, reprocessing of selected existing seismic reflection data and high grading areas of conventional and coal seam methane potential. Year 2 will involve the drilling of one exploration well to evaluate Permian age coal seams for coal and gas composition, gas content and permeability.

FINANCIAL CAPABILITY: GSP is a private company equally owned and funded by Budside Pty Ltd (Managing Director & major shareholder: Dennis Morton), Veruse Pty Ltd (Managing Director & major shareholder: Doug Battersby) and Seistend Pty Ltd (Managing Director & major...
Director & major shareholder: Doug Battersby) and Seistend Pty Ltd (Managing Director & major shareholder: David King). GSP brings to your attention the fact that Eastern and GSP have been the most active petroleum exploration company in NSW for many years. In the last two years GSP and Eastern have participated in a $35 million exploration and development program in PEL 238 and a $1.5 million two well drilling program in PEL 6. GSP and Eastern fund, and will continue to fund, such work out of their own resources and by involving new participants in joint venture projects.

Barbwire’s major shareholder, Pat Elliott, is a large investor in major resource projects in South Australia and NSW and he has organised funding of significant work programs in these states.

Further information regarding evidence of the financial capability of these companies to conduct the proposed work program can be sought by contacting the NSW Department of Mineral Resources (either Alan Coutts – Director General [02-9901 8800]; Brad Mullard – Assistant Director Coal and Petroleum [9901 8505] or Tony Galligan – Director Resource Planning and Development [9901 8501]) for verification. If you require additional information we will provide upon request.

TECHNICAL COMPETENCE: GSP directors Dennis Morton (24 years), Doug Battersby (32 years) and David King (28 years) bring a combined petroleum exploration experience of 84 years – resumes attached.

GSP and Eastern have an exploration focus on providing gas to the eastern Australian states. The main area of interest is PEL 238, located in the Gunnedah Basin, NSW where over $35 million has been spent over the last three years on drilling eighteen wells, fracture stimulating seven wells and placing these wells into production. In addition, 484 kilometres seismic data has been acquired and the existing seismic data set has been reprocessed. Exploration drilling is currently being conducted within the licence. Eastern also has interests in or rights to NSW exploration licences PEL 6 and PEL 8, both of which are ideally located to supply gas to the large eastern Australian markets.

We look forward to PIRSA processing our application and if you require any additional information or a meeting to discuss please contact the undersigned.

Yours faithfully,

[Signature]

Dennis J. Morton,
Director.

Director & major shareholder: Doug Battersby) and Seistend Pty Ltd (Managing Director & major
shareholder: David King) GSP brings to your attention the fact that Eastern and GSP have been the
most active petroleum exploration company in NSW for many years. In the last two years GSP and
Eastern have participated in a $35 million exploration and development program in PEL 238 and a

main area of interest is PEL 238, located in the Gunnedah Basin, NSW where over $35 million has
been spent over the last three years on drilling eighteen wells, fracture stimulating seven wells and
placing these wells into production. In addition, 484 kilometres seismic data has been acquired and
the existing seismic data set has been reprocessed. Exploration drilling is currently being conducted
within the licence. Eastern also has interests in or rights to NSW exploration licences PEL 6 and
PEL 8, both of which are ideally located to supply gas to the large eastern Australian markets.

Federal Court Application SG6007/95
ANTAKIRINJA native title claim

In May 2004, Agreements were executed between the Antakirinja and Ted Roberts native title claim groups, and the Antakirinja and Kokatha Munta native title claim groups.

Pursuant to action arising out of those agreements, the Antakirinja native title claim group has now authorised its applicants to make amendments to its native title claim group description, and to the name of its native title claim description.

The Aboriginal Legal Rights Movement Inc ("ALRM") is the recognised Native Title Representative Body under section 203AD of the Native Title Act 1993 (Cth) for all of the area covered by SG 6007/95.

For the purposes of Sections 203BE(4) of the Native Title Act 1993, so far as it may be relevant, the ALRM certifies that in its opinion:

(a) all the persons in the native title claim group have authorised the applicant to make the further amended application and to deal with matters arising in relation to it; and
(b) all reasonable efforts have been to ensure that the application describes or otherwise identifies all the other persons in the native title claim group.

The ALRM Inc has relied on the following information in providing this certification:

1.
Central West Mediation Strategy Meeting, Spear Creek, 19th-24th May 2004

1.1 This was a formal mediation conducted by the National Native Title Tribunal and facilitated by ALRM, for the purpose of resolving overlaps between the nine native title claim groups involved in the Central West region.

1.2 As an outcome of the mediation, the Antakirinja native title claim group executed Agreements with the Ted Roberts and Kokatha Munta native title claim groups.
1.3 Under these Agreements, the Ted Roberts and Kokatha Munta native title claim groups agreed to withdraw their areas of overlap with the Antakirinja claim area, in exchange for the opportunity to become members of the Antakirinja native title claim group.

1.4 Members of the Antakirinja, Ted Roberts and Kokatha Munta Native Title Management Committees, nominated Senior Elders, and Senior Lawmen and women from Anangu Pitjantjatjara Yankunytjatjara lands, Yalata, Oak Valley and Tjuntunjutjara communities, attended and participated in the six-day mediation conference.

1.5 Also in attendance throughout the mediation and preparation for it were ALRM staff, members of the National Native Title Tribunal, and various independent expert consultants including lawyers, anthropologists, interpreters and geo-spatial (mapping) experts.

2. Antakirinja Certification Meeting at Coober Pedy, 31st August – 1st September 2004

2.1 Pursuant to the Agreements reached between the Antakirinja, Ted Roberts and Kokatha Munta native title claim groups, a meeting was called shortly thereafter and facilitated by the Aboriginal Legal Rights Movement Inc.

2.2 The main purpose of the meeting was to determine whether the claim group description for the Antakirinja native title claim should be amended, so as to incorporate those persons on whose behalf the Kokatha Munta and Ted Roberts native title claims had been made.

2.3 For the following reasons and for the purposes of Section 203BE(4) of the Native Title Act 1993, ALRM is of the opinion that all the persons included in the amended native title claim group description for Antakirinja in consequence of the Spear Creek Agreements were invited to, and did attend, this meeting.

2.3.1 Approximately 170 native title claimants attended the meeting.

2.3.2 It has been established through cross-checking the attendance lists taken each day with the “claim authorisation” form that of those persons who attended:

2.3.2.1 All the named applicants for the Antakirinja, Kokatha Munta and Ted Roberts native title claims attended;

2.3.2.2 All members of the Antakirinja Native Title Management Committee / ALMAC Governing Committee attended;

2.3.2.3 All members of the Kokatha Munta and Ted Roberts Native Title Management Committees attended;

---

1 Subsequent to the decision of the Full Federal Court in Boltin on behalf of the Southern Noongar Families v State of Western Australia PCA [2004] 760, ALRM developed a claim authorisation form to determine how attendees at community meetings connect to relevant native title claim group descriptions.
2.3.2.4 All of the core family groups comprising the Antakirinja, Kokatha Munta and Ted Roberts native title claim groups were represented;

2.3.2.5 Senior men and women from the Antakirinja, Kokatha Munta and Ted Roberts claim groups attended;

2.3.2.6 Several Senior Lawmen and women from the Maralinga Tjarutja and Anangu Pitjantjatjara / Yankunytjatjara lands and Oak Valley community who were in attendance at the Spear Creek meeting in May 2004 attended.

2.3.2.7 Detailed information was gathered from those persons in attendance by ALRM Anthropological staff regarding the identity of those persons that may hold native title in the area covered by the Antakirinja claim and, in particular, those areas where the Kokatha Munta and Ted Roberts native title claims overlap the Antakirinja claim.

2.3.3 The meeting was notified in the following manner:

2.3.3.1 Individual notices with accompanying Agenda and Map were sent to the persons named in named as the applicant in the Antakirinja, Kokatha Munta and Ted Roberts native title claims, to members of those Native Title Management Committees, and to all members of the general native title community known to ALRM Inc, and on whose behalf those claims have been made.

2.3.3.2 ALRM Inc notes that approximately 115 individual letters were sent to such persons.

2.3.3.3 Public Notices appeared on 26th August 2004 in the Coober Pedy Regional Times, on Imparja Television on 11th, 13th, 16th, 18th, 20th, 21st, 23rd, 25th, and 27th of August 2004, and Notice of the Meeting was extensively broadcast on Umeedwarra Aboriginal Media radio station.

2.4 For the purposes of Section 203BE(4) of the Native Title Act 1993, ALRM is of the opinion that all the persons in the amended native title claim group description for Antakirinja in consequence of the Spear Creek Agreements, authorised the applicants for the Antakirinja claim to

a) amend the Antakirinja native title claim group description to include the Kite Family and Tunkin Family from the Kokatha Munta claim, the Ted Roberts family from the Ted Roberts claim, and Inawantji Mary Carrol and her family; and

b) amend the name of the application.
2.5 For the following reasons, ALRM is of the opinion that such authorisation was provided in accordance with Section 251B(a) of the *Native Title Act* (Cth) 1993:

2.5.1 A comprehensive explanation of the background and content of the Agreements reached at Spear Creek was provided by the Executive Officer of the ALRM Native Title Unit, ALRM’s Legal adviser and the legal representative of the Antakirinja native title claim group;

2.5.2 A comprehensive explanation of the meaning of authorisation under the *Native Title Act* (Cth) 1993 was provided by the legal representative of the Antakirinja native title claim group, including the requirement contained in Section 251B(a) of that Act;

2.5.3 Presentations were given by several members of the Antakirinja native title claim group, named applicants and senior men and women who were involved in negotiating the Agreements reached at Spear Creek on behalf of their communities;

2.5.4 Mr John Kite, Mrs Rose Hillman and Mr Warren Tunkin spoke on behalf of the Kokatha Munta native title claim group.

2.5.5 Mr Ted Roberts and Mr Kenneth Roberts spoke on behalf of the Ted Roberts native title claim group.

2.5.6 The persons named in paragraphs 2.5.3, 2.5.4 and 2.5.5 spoke about their traditional connection to the country covered in the area of overlap between the Antakirinja, Kokatha Munta and Ted Roberts native title claims, and about the process of traditional decision making that must be followed when considering whether or not to amend the native title claim group description for the Antakirinja claim;

2.5.7 The community reached agreed consensus that authority for the Antakirinja native title claim group continues to be given in accordance with a process of traditional decision making.

2.5.8 Having followed the process of traditional decision making identified at paragraph 2.5.7, the following authorisation was achieved and formalised in the following resolutions:

2.5.8.1 *The community accepts the traditional form of decision-making process of the group.*

2.5.8.2 *The meeting accepts the agreements made in principle by the ALMAC governing committee at Spear Creek.*

2.5.8.3 *The community authorises its applicants to amend the Antakirinja native title claim group description to include the Kite, Warren Tunkin, and Ted Roberts families, and Inawantji Mary Carol’s family.*
2.5.8.4 The community authorises its applicants to amend the native title application's name to "Antakirinja Martu- Yankunytjara" Native Title Claim.

2.5.9 As a result of years of close involvement with the Antakirinja native title claim, and having analysed relevant materials and attending the meetings noted above, ALRM Anthropological staff are satisfied that:

a) the Antakirinja native title group has a process of traditional decision making concerning the authorisation of applicants to make amendments to its native title claim group description; and

b) all the persons in the Antakirinja native title claim group have authorised the applicant to amend the native title claim group description, and the name of the application, pursuant to that process of traditional decision making.

2.3 The Parties acknowledge that a PPL granted to the Company in respect of a Petroleum production field may incorporate Claimed Land and/or Overlap Area and/or Other Claimant Land, and in that case acknowledge and agree that the total of 1% of the value at the well head of Petroleum produced and sold therefrom shall be shared between the Native Title Party and Other Claimants whose claim area is:

(a) affected by surface infrastructure; and/or
(b) the PPL area; and/or
(c) the production field located within the PPL area pursuant to a formula or other mechanism for determining the method of sharing the total Production Payment as between the Native Title Party and the Other Claimants to be agreed between those parties in accordance with the procedure and general principles set out in paragraph 3 of this Schedule 3;

2.4 Any Production Payment associated with Petroleum produced and sold pursuant to this Schedule 3 prior to the grant of a PPL will be paid:

3.1 As soon as practicable after execution of this Deed by the Parties and in any event within 12 months from the grant of the Licences and prior to the grant of a PPL, the Native Title Party shall meet with and negotiate in good faith with the Other Claimants, with a view to agreeing an equitable mechanism for sharing of the Production Payment having regard to the principles and procedures set out in this paragraph 3.

3.2 In this paragraph 3 the Native Title Party and the Other Claimants are called “the Negotiating Parties”.

3.3 At the request of the Negotiation Parties or any of them, the State and/or the Company may participate in any negotiations conducted under this paragraph 3 for the purpose of providing the Negotiating Parties with the benefit of any technical advice or industry experience which might reasonably be expected to assist the Negotiating Parties in reaching an equitable agreement as to the sharing mechanism to be applied to the Production Payments.

4. **Calculations to follow Petroleum Act**

4.1 Value at the well head of Petroleum produced and sold is to be calculated in the same way that “value at the well head of Petroleum” is calculated pursuant to section 43(6) of the Petroleum Act (as at the date hereof) where the sale price is bona fide and to an arms length purchaser **PROVIDED** that the “Guidelines for Payment of Royalty and Provision of Information” issued by the Department of Primary Industries and Resources of South Australia from time to time (a copy of the current version of which is annexed to this Schedule 3) shall be applied **mutatis mutandis** as if the reference to the royalty rate of 10% therein were a reference to 1%.

4.2 In calculating the value of Petroleum at the well head neither the Production Payment nor the statutory royalty payable to the State under the Petroleum Act shall be treated as a deduction or outgoing to any extent.

5. **Good and Services Tax**

5.1 **Acknowledgement**
The parties acknowledge that the payments referred to in clause 7, clause 8 and in this Schedule 3 have been calculated on a GST exclusive basis.

5.2 **GST Gross-Up**
Where any payment to be made by the Company under clause 7, clause 8 and in this Schedule 3 of this Deed (“Payment”) constitutes consideration for a taxable supply by the Native Title Party:

(a) the amount of the Payment shall be increased by, and the Company shall pay, an additional amount calculated by multiplying the amount of the Payment by the Prevailing GST Rate; and

(b) the Company must pay that additional amount at the same time and in the same manner as the Payment to which it relates
SCHEDULE 3: PAYMENTS TO THE NATIVE TITLE PARTIES PURSUANT TO CLAUSE 8

PROVIDED THAT the Company need not pay the additional amount unless and until ALMAC has given the Company a tax invoice sufficient to enable the Company to claim any input tax credit to which it may be entitled in respect of the taxable supply.

5.3 Interpretation
(a) in this clause, the expression "Prevailing GST Rate" in relation to a particular taxable supply, means the rate (expressed as a percentage of GST exclusive price) at which GST is imposed on that taxable supply; and
(b) a word or expression used in this clause which is defined in the A New Tax System (Goods and Services Tax) Act 1999 (Commonwealth) has the same meaning in this clause.

Schedule 3 – Guidelines for payment of Royalty Provision of Information

(ii) the term "plant" includes but is not limited to:
   (A) Any machinery, equipment, vehicle, implement, tool, article, vessel, pit, building, structure, improvement or other such property used in, or in connection with, treating processing or refining of the substance prior to the delivery or in transporting the substance to the point of delivery to the purchaser; or

And

(iii) "wellhead" means the casing head and includes any casing hanger or spool, or tubing hanger, and any flow control equipment up to and including the wing valves.

(b) Non Producing Wells

The capital expenditure referred to in clause (2)(a) may include the actual capital expenditure incurred by the Producer in respect of wells used solely for the purpose of assisting or enhancing the recovery of the substance from other wells or for the purposes of storing the substance or for the recovery or disposal of water used in connection with treating processing or refining of the substance prior to delivery or for any similar purpose other than the production of the substance and may also include the actual capital expenditure incurred by the Producer in converting a well used for the production of the substance to a well used for such other purpose.

(c) Interest Rate

For the purpose of clause (2)(a), the interest rate shall be one half of the long term Australian Government Bond Rate for bonds of a 10 year term as published at the end of the month in which the capital expenditure was made. If no such rate is in existence or published at the end of such period then the interest rate for the purposes of clause (2)(a) shall be one half of the average of the long term Australian Government Bond Rate for bonds of a 10 year term prevailing during the period of 5 years preceding the date on which such rate ceased to exist or be published.

(d) Apportionment of Expenses

(e) Sale of Plan

Notwithstanding the provisions of clause (2), if an item of plant is sold by a Producer ("the first Producer") to another Producer, or to a company that becomes a successor or assign of the first Producer ("the second Producer"),
the second Producer may only depreciate the plant to the extent to which the first Producer was, immediately before the time of sale, entitled to depreciate the plant.

(f) Take or Pay

For the purposes of this clause and of calculating the gross sales value of the substance, where the Producer enters into an agreement commonly known as a take or pay agreement, any payment received by the Producer in respect of petroleum which has been paid for but not been taken shall be treated as part of the gross sales value of the substance at the time of receipt of payment by such Producer and not at any other time.

(g) Tolling

(i) If the Producer receives any revenue from the use of any plant downstream of the wellhead used for treating processing or refining the substance sourced from anywhere within the area from time to time comprised in Exploration Licence..., or any Production Licence issued from an area which was comprised in Exploration Licence..., immediately prior to the time such Production Licence was issued, or in transporting such substance to the point of delivery to the purchaser such revenue shall be deemed to be part of the bona fide sales value of the substance to the intent that royalty shall be payable thereon.

(ii) Any sums, being sums deemed under clause (3)(g)(i) to be part of the bona fide value of the substances, paid by the Producer in respect of the use of such plant for treating processing or refining such substance or in transporting such substance to the point of delivery to the purchaser shall be deemed to be an expense under clause (2)(c).

(iii) If any such plant is used for treating processing of refining of the substance sourced from outside of the area referred to in clause (3)(g)(i) or in transporting such substance to the point of delivery to the purchaser any amounts which may be claimed as deductions under this clause (whether such deductions be by way of operating expenditure or capital expenditure) in respect of such plant shall be reduced by the proportion which would be obtained by the method of apportioning costs used by the Producer to ascertain the tolling fee, but any revenue received by the Producer for the use of such plant for the treating, processing or refining of such substance prior to delivery or in transporting the substance to the point of delivery to the purchaser shall not be deemed to be part of the gross sales value of the substance.

(4) Royalty Returns

(a) Not later than thirty (30 days after the conclusion of each calendar month, the Licensee will calculate and notify to the Minister the royalty, calculated by taking the bona fide sales value of the substance sold in that month, and
deducting therefrom the most recent estimated monthly expenditure provided under clause (4)(c), payable by each Licensee. The Licensee shall with each such notification provide the Minister with a statement, in a form approved by the Minister, advising of the quantity of the substance sold and the amount realised upon such sale during the last preceding month, together with such other information as the Minister may require.

(b) The Licensees shall not later than thirty (30) days after the conclusion of each calendar month pay to the Minister the amount of royalty specified in the notice referred to in clause (4)(a) as payable.

(c) On or before each 15th March (in respect of the next succeeding twelve (12) month period commencing 1st July), the Licensee shall bona fide estimate the sales volume of the substance, the sales value of the substance, the allowable deductions apportioned between capital and operational deductions and hence calculate the estimated royalty payable for the next succeeding twelve (12) month period and shall provide the Minister with such estimates, together with the apportionment thereof on a monthly basis. A review of such forecast will be required if significant change to the forecast is evident. The Licensee will be required to provide a bona fide forecast as necessary for up to a period of 5 financial years including detail as referred to above but excluding a monthly apportionment for all but the preceding twelve (12) month period.

(d) Not later than thirty (30) days after the completion of each twelve (12) month period concluding on each 30th June the Licensee shall reconcile the estimated expenditure with the actual expenditure and reconcile all calculations of royalties and shall provide the Minister within the said period of 3 days with copies of such reconciliations, together with a notice advising the Minister of any additional royalty calculated in accordance with the reconciliations as payable by each Licensee. If any such reconciliation shows that the total of the amounts of royalty paid during the last preceding 12 months was in excess of the amount of royalty which should have been paid for that period, the difference may be set off against royalty payable in the next succeeding months provided however that any expenses allowed as a deduction under clause (2)(b) to clause (2)(e) inclusive shall not be carried forward for a period of greater than 12 months from the month of expenditure.

(e) The Licensee shall not later than thirty (30) days after the completion of each twelve month period concluding on each 30th June pay to the Minister the additional royalty calculated in accordance with the reconciliation referred to in clause (4)(d) as payable by the Licensee.

(f) The Licensee shall at its cost cause the royalty calculation reconciliations submitted by the Licensee to be audited by the auditor appointed by the Licensee to audit its own accounts (provided that such auditor must be a duly registered auditor in Australia) and the Licensee shall forward a copy of the auditor's report in respect of a particular reconciliation within 3 months of the receipt of such reconciliation by the Minister, such report to be accompanied
by a certificate by the auditor that the reconciliation is in accordance with these guidelines.

(g) The Minister shall in accordance with Section 43(8) of the Act assess the value at the wellhead of the substance produced by the Licensees and may require the Licensee to pay within 30 days of the date of notice of such assessment the additional royalty determined by the Minister as payable.

24. Dispute Resolution

24.1 Guiding Principle
The parties agree that every effort should be made to ensure that disputes do not arise and that if a dispute does occur the parties should make every reasonable effort to resolve the dispute without recourse to this clause.
24.2 Priority of Procedures
Unless otherwise provided in this Schedule, if a dispute arises between the parties concerning this Schedule no party may commence any court proceedings relating to the dispute unless it has complied with the following paragraphs of this clause, except where the party seeks urgent interlocutory relief.

24.3 Notice of Dispute
Any party claiming that a dispute has arisen under this Schedule between the Company and either or both of the Native Title Party and ALMAC ("Complainant") must give written notice ("Notice of Dispute") to the other parties ("Respondent"). The notice must adequately identify and provide details of the dispute and refer to any documentary evidence of the matters claimed in the dispute and designate a senior representative of the Complainant who has the authority to negotiate and settle the dispute.

24.4 Response to Dispute
Within fourteen (14) days after Respondent receives the Notice of Dispute, the Respondent must give written notice to the Complainant. That notice must adequately define the Respondent’s response to the dispute and provide details and refer to any documentary evidence in support of its response to the dispute and designate a senior representative for each Respondent who has the authority to negotiate and settle the dispute.

24.5 Negotiations
Senior representatives designated pursuant to the preceding paragraphs of this clause must, within ten (10) days (or within such further period as the senior representatives may agree is appropriate) after the receipt of the notice referred to in item 24.4 investigate, negotiate and endeavour to settle the dispute.

24.6 Mediation
(a) If, within one (1) month of the date of the Notice of Dispute, the parties are either unable to resolve the dispute or no meeting has been held, the parties must mediate the dispute in accordance with the guidelines set out in Annexure D hereto, or as otherwise agreed by the parties, and shall seek to agree upon the appointment of an independent mediator with relevant experience of the matter in dispute or, failing agreement within fourteen (14) days, the mediator shall be appointed by the Minister for the time being responsible for the administration of the Petroleum Act.

(b) The Minister (in determining who to appoint as the mediator) shall have regard to the parties’ intentions in this Agreement:
(1) for the preservation and protection of the Aboriginal tradition of the Native Title Party; and
(2) the statutory obligations and commercial imperatives of the Company;
and shall take account of the fact that this Agreement constitutes a cross-cultural commercial agreement.

(c) The mediator, in conducting the mediation shall have regard to:
(1) the parties' intentions in this Schedule for the preservation and protection of the Aboriginal tradition of the Native Title Party; and
(2) the statutory obligations and commercial imperatives of the Company.

(d) If within one (1) month after the date of the mediator’s appointment, mediation has not taken place, or has failed to resolve the dispute, or in the event no mediator has been appointed within one (1) month of the Notice of Dispute, then any of the parties may by notice terminate the mediation process and may seek such remedies as they decide.

(e) Any date or period of time referred to in this clause may be varied or amended by agreement between the parties.

(f) None of the parties may commence court proceedings or arbitration concerning this Schedule unless it has first complied with the dispute resolution provisions contained in this clause. The parties agree that this Schedule may be pleaded as a bar to any court action commenced prior to termination of the mediation process other than an application for urgent interlocutory itself.

(g) In any case, each party shall bear its own costs for the mediation.

24.7 Without Prejudice
The parties acknowledge that the purpose of any exchange of information or documents or the making of any offer of settlement pursuant to this clause is an attempt to settle the dispute between the parties. No party may use any information or documents obtained through the dispute resolution process established by this clause for any other purpose.
