Gas acreage released in Poldo & Otway Basins

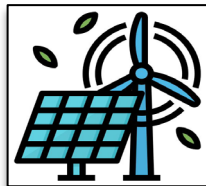

# South Australia is innovative and progressive

Australia's first large-scale onshore carbon capture & storage hub

First in Australia to facilitate natural hydrogen exploration

Global leader in renewable energy uptake

Ambition to become a world leader in green iron and steel production

**Gas is essential to SA's  
heavy industries & energy grid**

# Cooper / Eromanga Basins

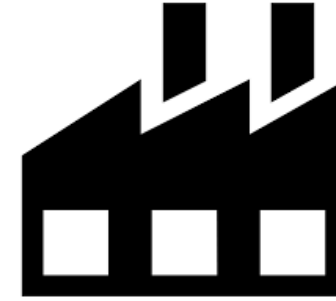

## Australia's premier oil and gas province

- Already produced nearly 9 trillion cubic feet of gas
- Significant reserves still to be exploited
- Emerging Deep Coal Play

## South Australia is backing gas

### UPSTREAM

- Acreage releases
- Precompetitive data
- Regulatory reform
- Advocacy
- SA Gas Initiative

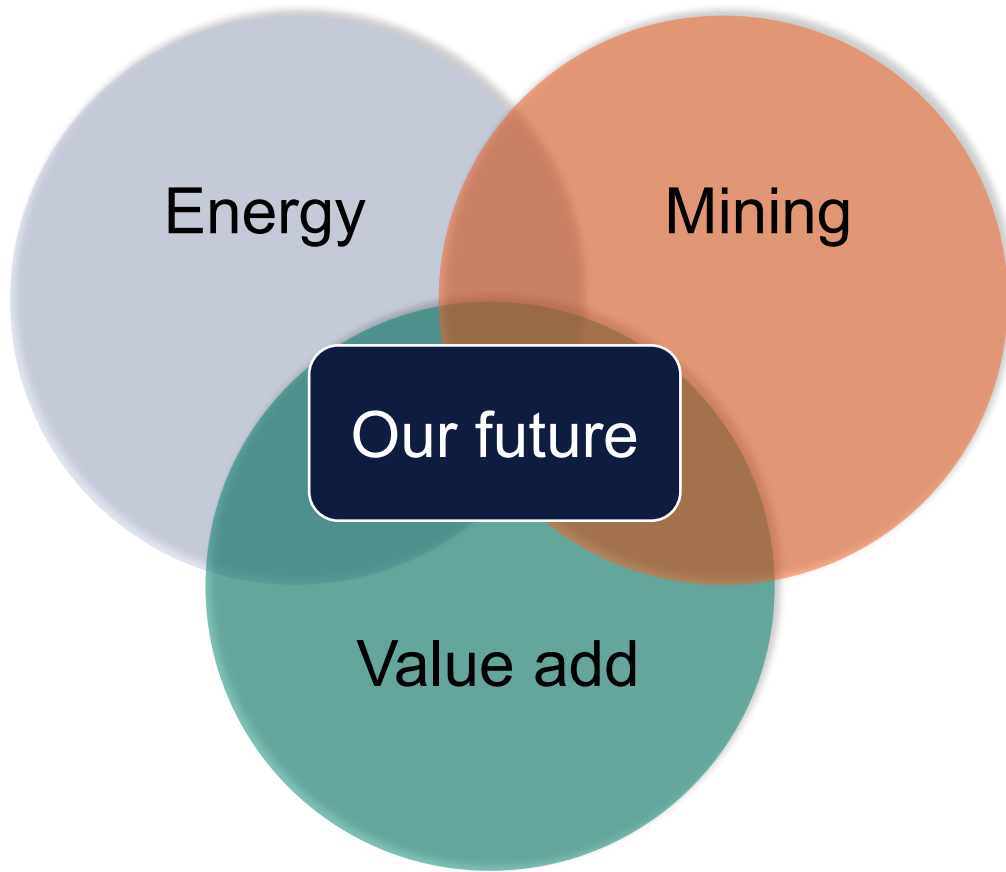

### DOWNSTREAM

- Support for industry growth
- FERM
- Carbon Capture, Utilisation & Storage
- Low carbon fuel production

# Key priorities for 2026 & beyond

- Implement Firm Energy Reliability Mechanism
- National Gas Policy
- Accelerate infrastructure provision

**Energy + Mining**

**Growth + Opportunity**

**Today + Tomorrow**

**Together.**

# Thank You
